## ROCHESTER NUMBER SIX White Winter Wheat On Our Orchard Farm

FQUALLY important with the conservation of this year's food supply is the necessity of planning. immediately, and wisely, how to produce the largest possible quantity of necessary food grains for next year's uses. The federal authorities not only, but nearly every state government is urging the use of the largest possible acreage and the most intensive efforts to produce record breaking crops for 1918. The present moment is none too early to make preparations for next year's crops. The seed for next year's winter wheat crop must go into the ground this fall, in northern latitudes preferably in September, or early in October at the latest. While the largest incentive to farmers to plant large crops this fall should be their sense of patriotic duty in the face of an imperative world wide need, they have another incentive in good prices for their 1918 crop. In order to encourage farmers to plant extensively, the federal government has established a maximum price for next year so that farmers need not fear financial loss by reason of a possible surplus and its consequent effect in prices below the cost of production.

While it is the patriotic duty of farmers to plant as many acres as possible, it is equally their duty to use every possible effort to secure the largest crop per acre. It is a pitiful fact that most American farms produce less than half of a possible crop. This condition is due, to some extent at least, to conditions which may easily be overcome and which wise and provident farmers are overcoming by the scientific use of fertilizers and by the use of better types of seeds.

We have been planting more of our fields to wheat since the war opened and have been concentrating in the development of one variety which we have found gives better satisfaction here in the heart of the wheat growing section of New York than any other variety used. Consequently, this year in fields where thousands of visitors in former years have viewed with admiration, a wide unbroken expanse of flowers, this year visitors have seen beautiful waving fields of ROCHESTER NUMBER SIX, White Winter Wheat, which many of our visitors have said is the finest stand of wheat they have ever seen. ROCHESTER NUMIBER SIX is a well known variety in this section and has been used for a number of years with good results. We know of many crops of ROCHESTER NUMIBER SIX and in not one case has the farmer been disappointed.

It is a very vigorous variety, withstanding cold and unfavorable weather. The plants develop very sturdily, and yield a strong, rust-resistant straw. If well developed the plant stools well, that is, it sends up an unusually large number of straws which do not easily lodge in storms and winds and which yield large well filled heads of plump kernels.

The glume or chaff is faintly tinted red; the seed is white; kernels are large and plump. Many heads have from sixty to seventy-five kernels each, and we have frequently counted more than eight hundred kernels on a single plant. The average yield from a fifteen acre field just threshed is over forty bushels per acre and we are confident that part of this field must have run fifty bushels per acre. Not a single pound of fertilizer was used on this field after taking off the previons crop. As the average yield of ordinary wheat in this part of the State averages less than twenty-five bushels per acre and as we had other varieties on fields equally as good which did not yield over thirty
(Continued on Inside Back Cover)

## OUR FALL GARDEN AND FLORAL GUIDE

(I)ITH every copy of VICK'S GARDEN AND FLORAL GUIDE we send our cordial greeting to the host of friends and customers whose confidence, measured by their orders, has enabled us to break the record this year of all other record breaking years. And with our greetings we include the hope that the coming year holds for them all an unusual measure of prosperity and happiness. For our part, we are keenly aware that each crowning success imposes greater responsibility upon us to be worthy of the confidence upon which our success depends. To that end we are building steadily a larger, better organization, so that, no matter how fast the orders come, we shall continue to be able to take care of each one, large and small, with such satisfaction to our customers that it will be a permanent advertisement to the real worth of the seeds and plants we sell and the efficiency with which we take care of our trade.

## IMPORTANT CHANGES IN OUR CATALOGUE

On account of the worldwide need of increased food supplies, we are giving several pages in this catalogue to farm and vegelabte seeds. We refer especially to pages $47,48,50$ and 51 . Because Wheat will be the most important crop, we are devoting both inside covers to our splendid farm grown crop of ROCHESTER NUMBER SIX WHITE WINTER WHEAT.

## A GREATER NEED OF SPRING FLOWERING BULBS THAN EVER BEFORE

There will be thousands of bare, bleak spots in gardens this year after the vegetable crops have been removed which can be utilized to splendid advantage while waiting for the gardening season next spring. The best way to cover unsightly appearances in one's garden this fall is to plant early spring flowering bulbs immediately after the vegetable crops have been harvested. Surely there will be need next spring for all the bright colors and brilliant shades for which spring blooming bulbs are noted. If peace comes before spring, as we all hope, glorious spring flowers will be expressive of our gladness. If the gloom of war continues to envelop us, we shall need to create all the brightness in our surroundings possible. Spring flowers will be wonderfully cheering and inspiring. Since there is plenty of room in most gardens for both vegetables and flowers, it is fitting that we Americans have the beauty of the flowers to sustain our souls as well as food for our bodies.

## OUR BULBS SURELY COMING

A cablegram just received announces that the ship carrying our bulbs has sailed from Holland. Because of widespread doubt among shippers and seedsmen that Holland bulbs could be brought across the ocean this fall, we have held back this catalogue more than two weeks awaiting positive assurance that our bulbs were on the way. We have been confident all along that on account of the enormous quantities of bulbs we import, our Holland friends would manage in some way to send us our regular shipments. We are, however, very glad to receive the announcment that our bulbs are on the way, and consequently will be on hand and unpacked ready for distribution fully as early as usual, probably before our catalogues reach our friends and customers. On account of the very much smaller importations of Holland bulbs reported to be coming to America this fall, we anticipate heavier sales than usual, and we have made all arrangements to handle a larger number of orders than ever. Every order, whether large or small, will receive the same prompt and careful attention as if the customer were to call personally at our Rochester store. - Owing to the unusual circumstances prevailing this fall, let us suggest the wisdom of sending orders early. It is just as safe and easy to order of us as if you lived next door. "Vick Quality Service" means satisfied customers every time.

## READ THIS BEFORE YOU MAKE OUT YOUR ORDER

## CONVENIENCE IN ORDERING

We prepay postage or express, unless otherwise expressly stated, within the first five parcel post zones. By this plan there is no possibility of being confused by a lot of intricate maps, scales, and schedules. In this respect we believe our system is the most simple and satisfactory possible to devise, and we do not know of any other concern, dealing in high quality bulbs, with prices as low as ours which prepays postage unless an additional remittance is forwarded. This applies to all points in United States within the first five parcel post zones from Rochester, which takes in all of the United States as far west as Minnesota, Iowa, Missouri, eastern Arkansas, and northern Mississippi.

## SAFETY IN SENDING MONEY

Money may be sent at our risk and expense if forwarded in the form of Post Office or Express Money Orders, Bank Drafts or Registered Letters. While we disclaim responsibility for the safe arrival of all other forms of remittance, our experience shows that it is steadily becoming safer to forward
money and personal checks by mail. Where more convenient, remittances for small amounts may be made in postage stamps of small denomination.

## REMEMBER

I. If you have occasion to refer to a previous order, placed with us, be sure to mention the post office to which the goods. were shipped, the post office from which the order was mailed, and give the same name as in the first order.
2. Unless otherwise instructed we will ship the best and cheapest way, whether by mail or express. Therefore, you should mention both your post office address and your express station.
3. We do not pay export duties.
4. Customers ordering seeds by express or freight, should promptly advise in the case of delay or overcharges on shipments or in other similar matters. Very frequently we are able to adjust matters entirely satisfactory to all concerned. Our services are always at your command.

# Vick's Fall Bulb Collections For House and Garden Culture 

NOTHING in the home will give more pleasure during the cold, dreary winter months than a few plants and flowers. This applies especially to those grown from bulbs of Narcissus, Hyacinths, Tulips and numerous other varieties. Paper White Narcissus and all varieties of Hyacinths may be grown either in dishes of pebbles and water or pots of earth. The pleasure derived from watching these bulbs develop into beautiful flowers will more than repay the small investment.

For outdoor growing a succession of bloom and a wide range of varieties are available, beginning with the courageous little Snowdrop, which makes its appearance before the snow has all disappeared, followed quickly by the bright hues of the Crocus, then the Single Early and Double Early Tulips, Narcissus, Hyacinths, Darwin and Late-Flowering Tulips,-the two latter lasting into the first part ot June, if the weather is cool. And finally Lilies, one variety after another, continue the succession of bloom throughout the season.

## Vick's Collections of Named Hyacinths

The following list of varieties we have grown for us in large quantities especially for these collections. The bulbs are large, sound, well matured, and with ordinary care will produce an abundance of bloom. The collections cover all the different colors and from early to late flowering, so that you may have one or more in bloom from six to eight weeks. As we sell a large number of these collections the price is considerably lower than the regular price if ordered separately. For cultural directions see page 5 of catalogue. These varieties are well adapted for either house blooming or planting outdoors in the garden or border.

Dickens, light blue. Garrick, fine dark blue. Isabella, rosy white. Prince of Orange, deep rose Both Collections, "A" and "B," postpaid for 85 cents

## Our "Old Glory" Collection

An attractive bed of Hyacinths, Red, White and Blue. 91 First-class Bulbs, by Express, collect, $\$ 2.75$. By Express or Parcel Post, prepaid as far west as Minnesota and Iowa, $\$ 4.00$ Our "Old Glory" Hyacinth Collection will be especially popular this year while we are thinking so much about the meaning of our flog. For the quality and price it is one of our best and cheapest Collections. Makes the most attractive and showy bed of bloom we have ever seen. Just imagine a bed five feet in diameter, bulbs planted in rows about six inches apart, with a center of bright blue, then a circle of pure white, and a border of brilliant red. Can you imagine anything more beautiful in early spring, at a time when there is a scarcity of other flowers? The collection is made up from our own selected stock and includes 9 I bulbs as shown here:

| Center | 1 | Bulb | Blue |
| :---: | :---: | :---: | :---: |
| 1st Circle | 6 | Bulbs | Blue |

Empress. A splendid great flower of rare beauty. One of the best of the two-colored large flowered trumpets. Perianth white and of good substance, trumpet rich yellow.
Trumpet Major. True golden yellow petals and trumpet, fine for cutting; standard single Daffodil, large trumpet.
Emperor. Deep yellow, large trumpet.
Henry Irving. Rich yellow, frilled trumpet; a magnificent flower.
Poeticus Ornatus. Pure white, sweet scented.
Double Von Sion, Double Nose. Extra large bulbs, producing two or three flower splkes.

Our collections are made up ready to send out. We cannot change varieties or quantities. Directions for planting ard care of bulbs in the house or garden given on page 5 of this book.

## Forty Bulbs For 60 Cents! TS!

 VICK'S Choice Collection of Assorted Bulbs delivered anywhere within the fifth Parcel Post zone for only 60 cents.The continued low prices for bulbs in Holland makes it possible for us to offer this collection of selected stock again this season for SIX'TY CENTS. For the past three years this has been the most popular combination bulb offer in our Catalogue. This collection of bulbs will do well either in the house or out of doors. While it is best to plant early they may be set out any time during the fall. Remember, that while the price is low the quality is the same as our regular stock. Every bulb is carefully selected. Order by nameVick's Choice Bulb Collection.

## VICK'S DARWIN TULIP COLLECTION

## Twelve First Size Bulbs of Four of the Choicest Varieties

We strongly recommend this class of Tulip for garden decoration in beds as well as in groups in the herbaceous border among shrubbery. They begin flowering the middle of May and continue for a long period at a time when many of the early spring flowers have gone and before summer flowers are in bloom.

For this collection we have selected four of the finest varieties with the idea of giving our customers the greatest range of colors in the largest flowering and tallest growing kinds. All of these are good for forcing; by planting them in the house early in the winter they will flower during the month of March. More complete descriptions and a list of the named varieties will be found on pages 14 and 15 .

Here is a splendid combination of varieties to show a good range of colors and several types of flower. These varieties will bloom about the same time as those in our Darwin Tulip Collection. The two collections supplement each other very tastefully.
Cottage Collection, Prepaid for 35 cents A small investment in these collections now will yield large returns in satisfaction and pleasure next spring

## Planning for Winter and SpringFlowers <br> PRACTICAL HINTS ABOUT PLANTING BULBS TO PRODUCE PRIZE-WINNING FLOWERS

THE window culture of Hyacinths, Tulips, and Narcissus is very popular, and presents a most attractive way of raising these plants, which by their beauty and fragrance grace our living rooms in winter. The general treatment of these different kinds of bulbs is the same. A light, porous soil just suits them-some garden loam, leaf mould and sand mixed together. Use five-inch pots for Hyacinths and Narcissus. Place some pieces of broken pot in the bottom so as to secure free drainage, and then fill up to about two inches of the top, set a bulb on the soil in the center of the pot, then fill in with soil until the bulb is about two-thirds covered. Set the pot down once or twice on the bench with a sharp rap so as to settle the soil and bulb down well. Tulips should be potted the same way, only there may be as many as four or five bulbs in a five-inch pot, and six in a six-inch pot, and they can be buried somewhat deeper in the soil, so that only the points show above the surface. At least three-fourths of an inch of space should remain between the top of the soil and the rim of the pot in order to hold water whenever watering is necessary. When the potting is finished as above described give water sufficient to wet the soil all through.

ROOTING THE BULBS. The pots should now be placed in a dark room, or in the cellar, to remain several weeks while the bulbs are making roots, for it is necessary that these should form before the growth of the leaves or flowers. Not much heat is needed for root-growth, and a temperature of $50^{\circ}$ is best. It will be a good precaution to take, to set the pots in a box and fill in soil or moss between the pots to keep them from drying out, and then cover the box over closely so that mice cannot get in. Here they can remain from six to ten weeks, or until they have quite filled the pots with roots. Some will root faster than others and will show signs of leaf-growth, and these can be taken up first to the light, while the others are left to bring out later, thus causing them to bloom at different times, successively over a number of weeks. They should be placed in a good light in a temperature of $50^{\circ}$ to $60^{\circ}$, and freely ventilated on fine days. Bulbs can be planted in boxes in the same way as here described.

BULBS IN THE GARDEN. All hardy bulbs do well in ordinary garden soil if it is dry, that is if water does not lie on it in winter. A compact clayey soil may be improved for bulbs by mixing with it a quantity of sand. A sandy loam is all that is desirable. The ground should be spaded deep immediately before planting. When planting a large number in a border or bed it is well to remove entirely the upper layer of soil to a depth of four inches and then spade the lower soil a good depth. Rake it smooth and level, and, if possible, spread over the surface a layer of sand an inch in depth; this provides a bed for the roots to run in freely, and enables them to make a vigorous growth from the start. Providing a bed of sand is not absolutely necessary, but if it is convenient to do so it is an advantage. The largest bulbs are now set on the bed, from four to six inches apart, and Crocus, Snowdrop, etc., about two inches apart, and when all are in place the surface soil that was removed is gently spread over them without disturbing them. In the north, bulbs should by preference be planted from the last of September up to November, while in the south, November may be early enough.
A FTER THE BULBS ARE PLANTED. Although old bulbs, except a few classes, are practically hardy and will give an abundance of bloom after the severest winter,

A Border of Tulips in a Rochester Garden

Planting Tulip Bulbs in Highland Park, Rochester ing prolongs the period of root growth by shortening the time the ground is frozen, thus enabling the bulbs to furnish most profusely blooms of largest size on long, strong, graceful stems. The covering should be removed early in spring.
$A^{\mathrm{F}}$ FTER THE BULBS HAVE BLOOMED. Bulbs in a shrubbery border may be left after blooming without disturbance, and each spring they will renew their growth and bloom. The last of May or early in June summer-blooming plants can be set in between the bulbous plants; or the bulbs can be carefully lifted with soil attached, taken away, and placed in a trench previously prepared for them in a half shady place, where they can remain until the foliage has decayed, when the bulbs can be removed from the soil and be placed in a dry, airy, cool place, to remain until time for planting in early autumn.

## VICK'S EXHIBITION HYACINTHS

'VVick's Exhibition'" is a term we give to the choicest bulbs selected out of the crop of each rariety by our Holland growers. The bulbs are the largest in size and the finest in shape of each variety. Whether you grow them in water or in rich soft loam, they will send up large well-formed flower trusses the equal of any on exhibition in florists' show windows. The prices are the lowest we have ever offered.

## By Mail or Express prepaid: 12 cents each; $\$ 1.35$ per dozen

In ordering please be careful to designate these as Vick's Exhibition varieties.

## SINGLE RED AND ROSE

Garibaldi. Dark red; fine truss.
Gen. Pelissier. Brilliant carmine; splendid spike; early. Gertrude. Rosy pink; large, upright spike; extra fine. Lady Derby. Waxy pink.
Lord Macaulay. Bright rosy carmine; very large bells. Moreno. Waxy pink; large bells, extra good truss.
Rose a Merveille. Blush rose; fine truss.

## SINGLE WHITE

Baroness Van Thuyl. Pure white; fine large truss.
Grande Blanche. Blush white; large bells and spike. Grandeur a Merveille. Fine large truss of large bells. La Grandesse. Extra fine pure white; large bells and grand spike.
L' Innocence. Extra fine spike of snow-white bells.

## SINGLE YELLOW

Ida. Rich pure yellow; fine large spikes.
City of Haarlem. Large, pure yellow.

## SINGLE BLUE AND PURPLE

Charles Dickens. Blue, shading to porcelain; handsome tall spike; excellent. Enchantress. Beautiful porcelain blue.
Grand Lilas. Light porcelain; extra fine large truss and bells. Grand Maitre. Dark porcelain blue; grand spike of large bells. King of the Blues. Rich dark blue'; large compact spike.
Queen of the Blues. Clear light blue; fine spike of very' large bells. Haydn. Lilac-mauve; fine large truss.

## DOUBLE BLUE

Bloksberg. Clear porcelain; fine large spike.
Charles Dickens. Dark blue, shaded lilac; handsome compact truss. Garrick. Extra fine dark blue.
The war conditions in Holland make prices lower than

## DOUBLE RED AND ROSE

Chestnut Blossom. Blush pink.
Le Grand Concurrent. Pale rose, shaded with pink; fine spike of large bells.
Lord Wellington. Extra fine blush pink; large spike and bells.
Prince of Orange. Deep rose; fine spike.

## DOUBLE WHITE

Bouquet Royal. Pure white, yellow center; fine spike.
Isabella. Fine blush white; grand spike and large bells. Excellent.
La Tour d' Auvergne. Pure white ;large bells; extra fine spike; very early. Prince of Waterloo. Pure white; large bells and truss.

## DOUBLE YELLOW

Jaune Supreme. Deep yellow; fine spike.

## GRAPE HYACINTHS

Also called "Blue Lily of the Valley" About six inches high and very much resembles a bunch of grapes. Planted in groups of a dozen or so, the bulbs produce a mass of blossoms. Very hardy. For winter blooming in the house they are excellent; a half-dozen should be planted in a five-inch pot and given the same treatment as the large Hyacinths.

Blue. Two for 5 cents; dozen 20 cents; hundred $\$$ r.io.
White. Three.for io cents; doz. 25 cents; hundred $\$ 1.25$. Prepaid.

## FEATHERED HYACINTHS

A peculiar species, improving daily in beauty after once commencing to
bloom, and developing finally intoan immense blue feathery plume about twelve inches high. It is very desirable for winter blooming, and cultivated as other Hyacinths it will give perfect satisfaction. Two for' 5 cents ; doz, 25 cents; hundred \$1.25. Mail or Express charges prepaid.

## ROMAN HYACINTHS

These Hyacinth Bulbs are extra selected, and will give the greatest satisfaction, each bulb producing several graceful spikes. We advise early planting, so as to have the bulbs well rooted before commencing to force them into bloom before Christmas.- Early delivery can best be secured by ordering at once.
Early Roman White, Pink and Blue. Each, 8 cts.; dozen, 85 cts.; hundred, $\$ 5.00$. Mail or Express charges prepaid.
before the war, and we give our customers the benefit

## Vick's Named Hyacinths-Single and Double

The list below is, in our judgment, as complete and as satisfactory as it is possible to select out of hundreds of varieties. Not only do we base our judgment on the opinion of our Holland growers, but as the result of our own trials. We consider every variety in the list below worthy of a place among "Vick's Quality Bulbs, The Best the Earth Produces." These are carefully selected, first size bulbs, and give excellent satisfaction whether planted in pots, for in-door growing, or in beds in the lawn or garden. Prices this year are again very low, but what is still more important, the bulbs are produced by the same careful growers from whom we have secured our stock year after year, and who assure us that our stock will be fully up to the high standard our trade requires.

## Each, 10 cents; dozen $\$ 1.15$

## Postage or Express Charges prepaid as far west as the Mississippi River

Not less than Six Bulbs will be sold at the dozen rate Ask for Special Prices if large quantities are desired

## SINGLE RED AND ROSE

Amy. Carmine.
Baron Von Tuyl, Rose. Early. Charles Dickens. Delicate pink. Garibaldi. Brilliant carmine.
General Pelissier. Bright carmine.
Gertrude. Rosy pink; large, upright spike.
Gigantea. Blush pink, large flowers and very large truss.
Lady Derby. Pale pink. Very large.
Lord Macaulay. Bright rosy carmine; extra fine.
Moreno. Fine pink. large bell.
Norma. Light pink, large bells and fine truss.
Roi des Belges. Bright red; early, fine spike.
Robert Steiger. Deep crimson Rose a Merveille. Rose.

## SINGLE WHITE

Alba Superbissima. Pure white, Albertine. Pure white. Early. Baroness Van Thuyl. Flowers snow white; fine large truss ; one of the best for any purpose.
Grandeur a Merveille. Blush white. Grand Blanche. White.
La Grandesse. Fine snow white.
L'Innocence. Snow white; extra fine spike.
La Franchise. Waxy white. Large, Madame Van der Hoop. Pure white, large bells.
Queen Victoria. Pure white.
Voltaire. Creamy white.

## SINGLE BLUE

Baron Van Thuyl. Dark blue.
Charles Dickens. Bright blue shading to porcelain blue ; excel. lent.
Czar Peter. Silvery blue.
Enchantress. Porcelain. Extra. Grand Lilas. Light porcelain.
Grand Maitre. Dark porcelain blue.
King of the Blues. Rich, dark blue. La Peyrouse. Light lavender
Queen of the Blues. Light blue, Schotel. Light lavender; extra fine.

## SINGLE PURPLE

Haydn. Lilac-mauve, large truss. Sir \|Wm. Mansfield. Purplish mauve.

## SINGLE YELLOW

City of Haarlem. Large pure yellow.
Ida. Rich golden yellow. Early. King of the Yellows. Deep yellow. Obelisque. Fine pure yellow. Tamerlan. Urange yellow.
DOUBLE RED AND ROSE
Bouquet Royal. Salmon pink.
Bouquet Tendre. Carmine rose, early.

Non Plus Uitra. Pure white.

## DOUBLE BLUE

Bloksberg. Clear porcelain blue.
Charles Dickens. Dark blue, handsome truss.
Crown Prince of Sweden. Violet blue.
Garrick. Lilac blue; fine spike, large bells.
General Antinck. Porcelain. Dark center, large bells and truss.
General Kohler. Large spike.
DOUBLE YELLOW
Jaune Supreme. Deep yellow, fine. Sir Rowland Hill. Pure Yellow

L'INNOCENCE-SINGLE WHITE HYACINTH

MlNIAIURE HYACINIHS IN POTS

## Vick's Hyacinths <br> In Separate Colors

Our Single and Double Hyacinths in separate colors, are so low in price again this year, that we consider them one of the biggest bargains we have to offer in this catalogue. Each color is made up of named varieties, of which our growers have a surplus. So popular are these bulbs, especially for out-door planting, that we have frequently had orders for a thousand each of several colors for private lawns and gardens. Immense quantities of them are also used for in-door potting. When, however, the finest specimen pot-plants are desired, the named varieties listed on Pages 6 and 7 are recommended. Remember that the quality of stock offered on this page is of the same high-grade that we have catalogued for years, and which we are enabled to offer so cheaply because of the circumstances mentioned in the opening pages.

## Our Special Low Prices This Year:

A BED OF VICK'S SEPARATE COLOR HYACINTHS

## EARLY-FLOWERING SINGLE TULIPS

TIIE single early varieties in mixtures set along a border produce a brilliant show. Plant the bulbs in beds or borders about six inches apart, with each color in a mass by itself to produce the strongest effect. Bulbs may be left in the bed after blooming, and bedding plants set in the same bed without disturbing the tulip bulbs.

If there is any particular branch of the bulb business in which we specialize, it is in the matter of Tulips. In our judgment the list of varieties contains the choicest out of several hundred known named kinds. There is not one variety in the list of Early Flowering Tulips which, in our judgment, could well be omitted. Each has characteristics and an individuality which make friends for itself wherever known.

The prices this year are so low that thousands of our customers will undoubtedly take advantage of the opportunity of setting out beds according to their individual tastes, After the war bulb prices will undoubtedly be greatly increased.

For growing inside, nothing will furnish a greater amount of satisfaction than one or two pots each of a number of varieties of Single Early Tulips, each pot containing from six to twelve flowers.

While there is a wide range of prices according to the cost of growing, our friends will find that the price is not necessarily an indication of the quality of the bloom, since many of the lower priced varieties have just as delicate and beautiful colors as the most expensive kinds.
After testing and comparing hundreds of varieties we have selected the following as the best of their kind.
Bulbs ordered at the thousand price will be sent by express, collect. At all other prices we prepay postage as far west as Minnesota, Iowa and Missouri
Varieties marked E are the earliest to bloom; EI, following; E2, the latest. D stands for dwarf; T , tall; M, medium height.

## The History of the Tulip

The first Tulip seeds planted by Europeans were sent or brought to Vienna in 1554 by Busbequius, the Austrian ambassador before the Sultan of Turkey. Busbequius reported that he first saw the flowers in a garden near Constantinople, and that he had to pay dearly for them. After the introduction of seed to Vienna the Tulip spread rapidly over Europe. In 1559 Gesner first saw the flower at Ausburg, and it is mainly upon his descriptions and pictures that the species T. Gesneriana was founded. One of the earliest enthusiasts was the herbalist Clusius, who propagated Tulips on rather a large scale. He did not introduce the Tulip into Holland, but the appearance of his specimens in 1591 did much to stimulate interest in the flower in that country. The best of Clusius' plants were stolen from him, as the admirers of the Tulip were unwilling to pay the high prices he demanded. After this theft the propagation of the Tulip proceeded rapidly in Holland and the flower soon became a great favorite. The production of new varieties became a craze throughout the Netherlands, culminating in the celebrated "tulipomania" which began in 1634. The excitement continued for four years. Thirteen thousand florins $(\$ 5,200.00)$ was paid for a single bulb of Semper Augustus-a popular variety at that time: Governmental interference was necessary to end the ruinous speculation. After the craze subsided, the production of varieties continued upon a normal basis, and has persisted throughout the centuries in Holland, making that country the center of the bulb-growing industry of the world down to the present day.

*Tournesol Yellow. (Er) M Yellow shaded orange. Extra large and showy. .'.julip Yellow Rose. ( $E_{2}$ ) $T$ A fine double Tulip does well either in house or garden; pure golden yellow.

# Vick's May-Flowering or Cottage Tulips 

MAY-FLOWERING T'ulips are among the most popular of all bulbs for fall planting. They do not take the place of, but come into bloom following the early varieties. On account of their increased size, both of flower and stem, they make a most handsome showing. Use preferably a light, well-drained soil, and plant at least four inches deep so that shallow-rooted annuals may be planted over them after their blooming season is past.

Cottage Tulips have a greater range of color and form than any other class. In good soil they grow from two to three feet high, the flowers lasting two weeks in good condition. Planted promiscuously among the shrubbery or perennial beds, the effect is very beautiful, as, at their time of flowering, there is a dearth of flower color. Cottage and Darwin Tulips make a splendid combination planted together and are unsurpassed for cutting for table and house decoration. Vick's May-Flowering or Cottage Tulips are fine for bedding and forcing in pots in the house, and for every purpose for which the early flowering varieties are used. Our list is very complete, comprising the best named varieties. Our May-Flowering Tulip mixture will appeal to those wishing a variety of color.

Late-flowering Tulips furnish a wealth of beauty and color between the early flowering bulbs and summer annuals.
Bouton d'Or (Golden Beauty). A graceful Tulip with cup shaped golden-yellow flowers that keep a long time in good condition. Unsurpassed as cut flowers and for late forcing. 20 inches high.
Each, 5 cts ; doz. 40 cts ; IOO, $\$ 2.25$; I,000, \$I8.00. Clusiana. A white Tulip striped with red, center violet. While the petals of this variety are small and narrow it is very popular on account of its unique shape.
Each, 7c.; doz. 60c.; 100, $\$ 3.50 ; 1,000, \$ 30$.
Elegans Carmine. A very free growing, handsome Tulip with long fowers of brilliant crimson with yellow centers. Petals are elegantly reflexed. Splendid for borders and for cut flowers. 15 inches high.
Each, 6c.; doz. 40c ; 100, \$2.50; 1,000, \$20.
Elegans White (White Crown). A large flowering Tulip with reflexing petals of creamy white edged with carmine rose. Fine for borders and for late forcing. 20 inches high. Each, 6 cents; doz. 50 cents; $100, \$ 3.25$; 1,000, $\$ 25.00$.
Florentine odorato. A sweet scented Tulip for border planting.
Each, 6 cents; doz. 50 cents; 100, $\$ 2.50 ; 1,000, \$ 18.00$.

Each, 5 cents; doz. 40 cents ; 100, $\$ 2.25^{\prime \prime}$ 1,000, $\$ 15.00$.
Persica. A dwarf growing, sweet scented yellow Tulip for border planting.
Each, 5 cents; doz. 45 cents; 100, $\$ 2.75 ; 1,000, \$ 20.00$.
Picotee (Maiden's Blush). A very beautiful Tulip as a cut flower and in borders and beds. The petals are recurving, pure white, acquiring in a few days a pink edging which suffuses the entire flower as it grows older. Very Beautiful. 22 inches high. Each, 5 cents; doz. 40 cents ; 100, $\$ 2.25 ;$ I,000, $\$ 15.00$.
Primrose Beauty. A sweet scented, distinctly colored, pale primrose Tulip with gracefully recurving, long tapering petals. Fine for cutting. 18 inches high.
Each, 5 cents; doz. 45 cents; 100, $\$ 2.75 ; x, 000, \$ 22.00$.

## Old Dutch Tulips

## Bizarres and Byblooms

A very old, tall-growing race of Tulips. The flowers are al ${ }^{1}$ striped, and splashed and feathered with beautiful combinations of color. These are direct descendants from the Tulips that caused the famous Tulip craze in 1635, when people traded and sold all their possessions for rare varieties of these bulbs.
Bizarres. Yellow grounds with orange, bronze, maroon, black and brown colorings.
Each, 5 cents; doz. 35 cents; 100, $\$ 2.25$; 1,000, $\$ 15.00$.
Byblooms (Roses). White grounds with rose, red, pink, scarlet and cerise markings.
Each, 5 cents; doz. 35 cents; 100, $\$ 2.25 ; 1,000, \$ 15.00$.
Byblooms (Violets). White grounds with violet, blue and heliotrope markings.
Each, 5 cents; doz. 35 cents; 100, $\$ 2.25 ; 1,000, \$ 15.00$.
Breeders. A distinct class; very beautiful. Fine mixed, Each, 5 cents; doz., 40 cents; 100, $\$ 2.40 ; 1,000, \$ 18.00$.

Retroflexa. Yellow, recurving petals; distinct.
Each, 5 cents; doz. 45 cents; 100, $\$ 2.75 ; 1,000, \$ 23.00$.
Striped Beauty. Silvery rose blotched and striped with dark carmine and white. The large, showy flowers are held on tall, stately stems. Splendid outdoor and late forcing Tulip. I8 inches high.
Each, 7 cents; doz. 60 cents; $100, \$ 3.25 ; 1,000, \$ 27.50$.
The Fawn. A large, egg-shaped flower of exquisite beauty on a graceful, tall, strong stem. The flower is of a dainty fawn color changing to rich cream flushed with blush rose. 20 inches high. Each, 6 cents; doz. 50 cents; $100, \$ 3.00 ; 1,000, \$ 25.00$.
Vittelina. A large, broad petaled, sweet scented primrose flower, becoming white as it ages. A very lovely Tulip for outdoor planting and a good forcer. 20 inches high.
Each, 7 cents; doz. 60 cents; 100, $\$ 3.25$; 1000, $\$ 27.50$.
Vick's May-Flowering. All colors mixed.
Each, 5 cents; doz. 35 cents; 100, \$1.90; 1000, \$12.00.

A very long season of bloom may be had by selecting varieties of Early-Flowering, Cottage and Darwin Tulips

# Vick's Darwin Tulips 

All shades of White, Pink,
Lilac,
Rose,
Scarlet,
Crimson
and Maroon.

Darwin Tulips are noted for their rare beauty, their large flowers, long, strong, erect stems and long flowering period. The stems are from $1 \frac{1}{2}$ to 3 feet in length, and bear mammoth blooms of handsome shape in beautiful satiny shades of all colors. The foliage is abundant, strong and heavy. On account of their great beauty they are growing in popularity by leaps and bounds. Planted in connection with the early-flowering kinds they will complete a succession of bloom from early spring until the first of June. We strongly recommend this class of Tulips for garden decoration in beds as well as in groups in the herbaceous border among shrubbery. They begin flowering the middle of May and continue for a long period at a time when many spring flowers have gone and before summer flowers are in bloom.
At the single, dozen and hundred prices we prepay postage or express anywhere east of Kansas. At the thousand price bulbs are shipped by express, collect.
Albert Kellogg (Early Dawn). Color, a heautiful rose with a slight shading of lavender at base of flower. An erect, strong grower; stems about 25 inches long. One of the best for garden or house culture.

Each, 6 cents; doz. 50 cents; 100, $\$ 2.50 ; 1,000, \$ 20.00$.

## Parrot Tulips

The Parrot Tulips are the most brilliant and showy members of the Tulip family, the colors ranging from yellow to deep brown, intense scarlet and fiery crimson. When massed in a bed they make a dazzling show.

Admiral de Constantinople, Red . . . . . Cafe Brun. Rich brown Cramoisi Brilliant. Scarlet Gloriosa. Yellow and red. Lutea. Yellow
Markgraaf. Red and yellow
Perfecta. Red striped. .
Superfine Mixed

The large, cup-shaped blooms on strong, upright stems make the Darwins an ideal Tulip for outdoor growing

THE well-known Daffodil and the Jonquil belong to the Narcissi family. With the exception of the Polyanthus varieties the bulbs are hardy in all parts of the country, and should be planted in Autumn in the garden border at the same time and in the same manner as Hyacinths and Tulips. All species of Narcissi love plenty of moisture. In pot culture they should be freely supplied with water. Nearly all varieties do well when grown among pebbles in bowls of water. The single and double varieties make a great show in the garden in early spring, while the Polyanthus varieties are particularly desirable for window and greenhouse culture, planted three or four in a five or six inch pot. The Narcissi named in this list are the most beautiful and popular varieties.

## GIANT TRUMPET NARCISSUS

Empress. A splendid flower of rare beauty One of the best of the two-colored trumpets. Perianth white and of good substance ; trumpet rich yellow. An excellent forcer First size Mammoth
Emperor. Deep yellow, large trumpet

## CHINESE SACRED LILY

A variety of Polyanthus Narcissus introduced by the Chinese, and used by them to decorate their temples and joss-houses on New Year's Day. The flowers are pure silvery white, with golden yellow cups, chaste and graceful in appearance and of exquisite fragrance. A dozen bulbs started at intervals in shallow bowls of water, three or four bulbs in each dish, with just enough small pebbles or stones to prevent them from toppling over, will give a succession of flowers throughout the winter,

* Extra large size bulbs, by mail, postpaid, each 15 cents per dozen, \$1.75

PAPER WHITE NARCISSUS : BLOOMS IN THIRTY DAYS

SCillas will thrive in the most shaded locations

## VICK'S CROCUS

CROCUS and Snowdrop are among the first flowers to appear in our gardens; they come as soon as the frost is out of the ground and while frosty nights still occur, and they are brave and hardy little heralds of the spring. The bulbs should be planted so as to cover quite a space on a flower border, or they may be set about two inches apart in a row as an edging. After flowering, the bulbs may be taken from the ground and kept in a dry place until planting time in the autumn, or may be allowed to remain in the ground; it will make no difference, except that those remaining undisturbed will be likely to flower a week or ten days earlier than those which have been replantec. A very pretty effect is secured by planting the bulbs in large numbers on the lawn or front grass plat. They can be set in by thrusting down a narrow spade or a trowel and spreading the opening a little, sufficient to place in the bulb, and then crowding together. In this way they are quickly planted and the sod is not disturbed. In early spring the flowers appear above the freshening grass. By the time it is necessary to run the lawn mower over the grass the plants will have disappeared and no harm will come to them from the mower, but the bulbs will remain to bloom again each succeeding spring.

## SCILLA

The Scilla blooms before the leaves appear, and the flowers, about an inch across, are borne in clusters on stems about four inches in height. Scilla Siberica produces flowers of an intense blue, while those of S. Præcox alba are pure white. After the flowers are gone the leaves appear and a new growth of bulbs take place. The bulbs are hardy, quite small. and should be planted in a group in the garden where they may be left. The bulbs can also be grown in pots, six or eight bulbs in a 4 -inch or 5 -inch pot, and will do well in a window or cool greenhouse. Do not give them a warm place. After growing in pots the bulbs can be turned out into the border.

## CROCUS IN COLORS

 At single, dozen and hundred prices we prepay postage.

The bright colored Crocus, peeping from the ground, early in spring, soon after the snow goes, are greatly appreciated

## ANEMONES

Anemones are very beautiful flowers. Although not thoroughly hardy in northern latitudes, they will usually do well for garden culture if planted in a sheltered nook and given some protection from cold weather by a coating of leaves or straw. On a well-drained border the bulbs may be planted in autumn and given the protection of a thick coating of stable litter or leaves or evergreen boughs. The flowers are so beautiful that they will give the highest satisfaction when they come into bloom in the spring. Plant them five inches apart and cover three inches deep. The bulbs can also be potted in the fall and kept cool and be brought into bloom in the window or the greenhouse.

## ALLIUM NEAPOLITANUM

This species is largely raised in Southern France for its handsome white flowers produced in clusters; and is extensively grown by florists. Six or eight bulbs may be planted in a five-inch pot; they will develop in a low or moderate temperature.

Two for 5 cents; dozen $25^{\circ}$ cents; $\$ 1.35$ per 100, postpaid.

## CALLA-Richardia Africana

The well known Egyptian Lily, or Lily of the Nile, with large white flowers and broad foliage. Excellent for aquarium purposes. In the spring they may be planted in the garden and left until September, when they mav be taken up, potted, and removed to the house or conservatory, and to bloom during the winter and spring.

First Size, large flowering bulbs, each, 25 cents ; dozen, $\$ 2.75$. Postage or Express prepaid.

## SPRING SNOWFLAKE-Leucojum

Leucojum Vernum or Spring Snowflake resembles a monster Snowdrop. Very usefulfor cutting; also makes a beautiful border or cluster around the edges of shrubbery. Well suited for pot culture. Flowers white, with bright green spots.
Four for 20 cents; per dozen 50 cents; per hundred $\$ 2.75$, postpaid.

## CHIONODOXA

Spring-flowering bulb, producing Scilla-like flowers; hardy and early, Excellent for winter blooming in the house, and also for cut flowers.

## COLCHICUM

## The Autumn-Flowering Crocus

Colchicum, or Autumn Crocus, is a curious and interesting fiower The leaves appear in the spring, and the flowers in the autumn. The bulbs are perfectly hardy. Each bulb gives quate a cluster of flowers, generally six or eight, and so persistent is it in its determination to flower that if taken upearly in the autumn before the time for flowering, and placed in a pot or basket, it will bloom just as well as if left in the ground. Colchicum autumnale. White. Each, 15 cents; per dozen, \$r.25. Colchicum autumnale. Lilac. Each, 15 cents; per dozen, $\$ 1.25$.

Postage or Express prepaid.

## IXIA-The Rainbow Flower

There is a greater difference in the form and color of Ixias than in almost any other class of plants. They are easily raised in pots in a cold frame, window, or greenhouse. Half a dozen bulbs may be put in a four-inch or five-inch pot.

Choice bulbs, 3 for ro cents; per dozen, zo cents; per 1oo, $\$ 1.25$.

## All postage paid except where noted More bulbs should be planted for early spring flowers.

AZURE AMARYLLIS

## AZURE AMARYLLIS

Ixiolirion Montanum. This charming addition to the springfowering bulbs comes to us from Siberia; it is of the easiest culture and perfectly hardy. Like Iris they require very little care and remain in the ground from year to year. The clear, deep azure-blue of its lily-like flowers is a rare, beautiful shade of color. The flowers, two inches in diameter, are long-stemmed, graceful in form and have a delicate fragrance. Two feet in height. Blooms in May.

Each, 5 cents; dozen, 40 cents; hundred, $\$ 2.25$; prepaid.
Carefully selected varieties give a wonderful succession of bloom

THE LEBANON FLOWER, pUSChKinta libanotica

## LEBANON FLOWER

The Lebanon Flower (Puschkinia libanotica) is one of the earliest spring blooming plants in cultivation. The handsome white and blue flowers open with the Snowdrop and the Crocus. For mass planting among shrubbery, or for the garden border, the Puschkinia is not surpassed by any spring-blooming plant, the large spikes of white flowers delicately striped with blue being parlicularly effective, resembling very much those of the Hyacinth. As a potting bulb for house culture it ranks with the Hyacinth and Narcissus. The bulbs increase rapidly and should be divided every two or three years. The Puschkinia is a native of Asia Minor.

3 for 10 cents; dozen, 30 cents: hundred, $\$ 1.75$, postpaid.

## ORNITHOGALUM-Star of Bethlehem

A beautiful, showy plant. The flower spikes are from eighteen to twentyfour inches high, bearing numerous pearly white flowers with jet-black center, and with a perfume distinctly aromatic. When grown in the garden they make a very beautiful sight. The plants are excellent for greenhouse or house culturo. Florists are now growing them extensively for cut flowers on account of their long keeping quality. Each, 5 cents; dozen, 50 cents, postpaid. Per hundred, $\$ 2.75$, express charges paid.

## SPARAXIS

These are small bulbs with flowers of many colors, like those of the Ixia, and they require the same treatment. They make beautiful winter-blooming plantts. Several bulbs can be planted in an ordinary pot. Mixed varieties, dozen, 25 cents; hundred, $\$ 1.25$, postage or express charges prepaid.

## FREESIAS

The bulbs are small, and six or eight can be planted in a five-inch pot. The earlier the bulbs are potted, the better, setting them down so that the soil will cover the tips. They will start both root and top growth without much delay, and can easily be had in bloom by Christmas. Be careful to keep them moist and in a moderate temperature. The flowers, which are white with a blotch of yellow at the throat, are about an inch in length, and are produced in a raceme of five to eight, each standing erect. They are deliciously fragrant.

Excelsior. A new variety, largest and best of all. Pure white Each, 12 cents; dozen, $\$ \mathrm{I} .00$.

A pot o. Giant Flowered Freezias, planted in early fall, will be in bloom by Christmas, making a beautiful decoration

## SNOWDROPS

It is almost an even race between the Snowdrop and the Crocus to appear in the spring, the Snowdrop coming a few days earlier. As the name indicates, the flowers are white, and instead of standing upright, like the Crocus, they are nodding on stems about six inches in height. The bulbs should be planted close, and like the Crocus, can be planted on the lawn, where they will maintain themselves for a number of years. They make pretty pot plants for the window. Several bulbs may be planted in a single pot.

At prices quoted whe prepay postage.

## OXALIS, for Pots and Hanging Baskets

An interesting class of small bulbs, desirable for winter-flowering in pots, producing an abundance of bloom. Plant from three to five bulbs in a pot. After flowering, knock them out of the pots, separate and plant in fresh soil, keeping them in a dry place, About August or September they whll commence growing again. Then bring them to the light and air and water.

## FRITILLARIA

Very early flowering bulbs, producing large, bell-shaped flowers of various colors. Suitable both for the open garden and for pot culture.
Meleagris (Guinea Hen Flower). Mixed varieties, dozen, 25 cents; hundred, $\$ 1.50$, postpaid.
Crown Imperial-Fritillaria Imperialis. A well-known, stately hardy plant, which throws up a tall, vigorous stem, and in early spring produces a cluster of large, drooping, bell-shaped flowers, surmounted by a tuft of glossy green leaves. The bulbs should be planted four or five inches deep, and about a foot apart.

$$
\text { Mixed varieties. Each, } 20 \text { cents ; dozen, } \$ 2.25 \text {. }
$$

FRITILLARIA MELEAGRIS

SNOWDROPS-THE EARLIEST OF SPRING FLOWERS

## RANUNCULUS

The bulbs of the so-called Garden Ranunculus are somewhat tender in northern climates, where they can be recommended only for pot culture. The flowers are both single and double, and of a great variety of colors. The bulbs have tooth-like prongs or claws and should be set with the claw downwards. The bulbs can be kept in sand in a low, even temperature through the winter, and then be planted in the garden early in the spring.

In growing the plants in pots they should have a cool, moist atmosphere, such as afforded by a cool greenhouse. Remember that these prices bring the bulbs to your door.

At prices quoted we prepay postage or express charges.

## AMARYLLIS

Fragrans. Flowers three to four inches long; yellow; fragrant ; stalks 15 to 18 inches high. Each, 15 cents.
Regine. Equestre. One of the best of the Amaryllis family for winter blooming. Flowers large, bell-shaped; color light scarlet, thruat or center white. Each, 15 cents.
Johnsoni. An elegant pot plant, with crimson flowers five inches in diameter, each petal striped with white. Flower stalks two feet high, with clusters of three to five blooms. Each, 40 cents.
Formosissima. Jacobean Lily. Eight to ten inches high. Flowers dark crimson. The bulbs are dormant during the winter. Each, 15 cents.

## TRITELEIA

Triteleia is a South American species. The common name for it is Spring Starflower. Flowers pale blue, more than two inches across, usually borne singly on stems a foot or more in height. A good pot plant.

Triteleia uniffora, Two for 5 cents; dozen 25 cents;

We secure bulbs, like everything else we buy, from most reliable sources in order to sell Vick quality, the kind that pleases

WE are growing more varieties and larger quantities of Lilies each year on our own bulb farms, near Rochester, where, because of favorable soil conditions and our experience in Lily growing, we are able to secure unusually fine bulbs. Some of our Lilies come from Japan and other far-away places, but whether grown on our own farms or coming to us from other experts in Lily growing, our bulbs are true Vick Quality.

Lilies should be used more and more extensively in the hardy border. By planting different varieties a succession of bloom may be had from the first of June until the latter part of August. These flowers are not only very valuable as beautiful flowering plants in the garden, but are very handsome as cut flowers for the house.

Fall is the Proper Time for Setting Out Lily Bulbs
Auratum, the Gold-Band Lily of Japan. A favorite variety for outside purposes. No garden, however small, nould be without it. Its ease of culture and magnificent flowers of a delicate ivory color thickly dotted with choco-late-crimson spots with a gold band running through the center of each petal, make it one of the most desirable varieties of garden lilies. Blooms about July 2oth. Although quite hardy, for best results an extra covering should be given the bulbs in the winter.

Candidum. Common white lily: hardy, free bloomer, fragrant; known as Ansunciation Lily or Madonna Lily. Our bulbs are ready in August, and should be pIanted as early as possible in the fall. Can be
grown inside. Blooms in June.......

Elegans Batemanni. A beautiful Japanese variety; flowers upright, of clear apricot-yellow ; strong and hardy; should have a place in every garden. Blooms about July 15th.............
Elegans Wallacei. Flowers rich vermilhion-orange, spotted with maroon. Blooms in the autumn. Fine

## LILIUM MYRIOPHYLLUM-Regal Lily

Mr. E. H. Wilson, the famous plant collector, collected the bulbs now offered, in Northwestern China. He considered this the finest of all lilies. It is absolutely hardy, and is excellent for forcing. It has been predicted that this will become the Easter Lily of the future, and being so hardy, may be grown in the garden. The flowers are white, slightly suffused with pink, and with a beautiful shade of canary yellow at the center extending part way up the trumpet. It is delightfully perfumed, reminding one of jasmine, still lacking the heavy, oppressive odor of $\mathrm{mos}_{t}$ liiies. Blooms out of doors early in July. Each, \$x.oo ; dozen, \$ro.00.
Our experience in selling direct to the planter for nearly 70 years has proved that the best stock is the cheapest

## LILIUM TIGRINUM-The Old-Fashioned Tiger Lily

Harrisii, (Easter Lily.) The flowers are pure white, trumpet-shaped, and are un ex- EACH doz celled in beauty by those of any other species, while the fragrance is simply exquisite. Especially used for indoor growing. By starting the bulbs at intervals of a few weeks, a succession of bloom may be had for a long time
Japonicum longiflorum. The hardy Easter Lily. Very fragrant. White, trumpetshaped. Blooms about July 20th. See illustration, page 24 .
Longiflorum Multiforum. Pure white trumpet-shaped flowers. Splendid for growing in pots for Easter flowering, and very desirable for outdoor planting, being quite hardy :
two to three feet high; blooms in June outdoors. Easily grown indoors . . . . . . 25

Speciosum Album. The Speciosum or Lancifolium are the most important of all the Japanese Lilies. Always satisfactory. The Album has large white flowers of great substance, with a greenish band running through the center of each petal
Speciosum Rubrum. White and rose; rich crimson spots. Extra fine. For illustration, see page 22
eciosum Melpomene, Crimson, spotted with deep blood-red, each petal distinctly bordered with white. Same habit of growth as rubrum ; stem dark and color of flower much deeper

The above three bloom about August 15th.
To encourage our customers and stimulate a more extensive planting of Lilies we offer a collection of the above-name three varieties, Speciosum Album, Speciosum Rubrum and Speciosum Melpomene, of three bulbs each (nine in all), for $\$ 1.75$; two of each (six in all), for $\$ 1.25$, postpaid.
Tenuifolium. One of the most beautiful and delicate of the early-flowering varieties. Flowers dazzling vermillion-scarlet, suspended from slender, graceful stems; they are so bright as to attract attention from a great distance. The first to bloom
Tigrinum splendens. The old-fashioned Tiger Lily. Perfectly hardy, and most desirable for planting in the border with other hardy plants. Blooms about August rst
Tigrinum fl. pl. Double Tiger Lily. Blooms about August 15th

However popular other varieties of hardy perennial plants may become, there will always be a large place in the public esteem for stately, fair Lilies, which lend themselves with charming gracefulness to any scheme of garden decoration and add to the variety and beauty of any plant collection.

## Suggestions for Planting Lilies

Plant the large Lily Bulbs, like those of Auratum and Speciosum, eight or nine inches deep. Small bulbs, like those of Tenuifolium and Canadense, five or six inches deep. The Lily throws out roots from the stalk above the bulbs, and these serve the double purpose of supplying nutriment to the plant and of bracing and sustaining in position the heavy weight of the blossoms. The soil for Lilies should be made rich with old, well-decayed manure, thoroughly incorporated with the soil; fresh dressing must never be used, nor must any come in contact with the bulbs, which should be set on and surrounded by a layer of pure sand. When the ground freezes in the fall, apply a covering of stable litter or leaves, which in the spring may be forked in, thus supplying enrichment to the soil,

The "Trumpet Flower" or "Hardy Easter Lily "

fBEAUTIFUL trumpet-shaped flower, five to sixinches in length and of pearly whiteness, Plants eighteen inches to two feet in height. The Longifforum, as well as being one of the best for outdoor growing, bears heat well; therefore it can be grown in the house where it is one of those beautiful and useful plants which we cannot praise too highly. A bed of these Lilies is shown above.

For price, see page ${ }_{23}$

## VICK'S DAY LILY COLLECTION <br> 75 Cents FOR FOUR VARIETIES OF LILIES 75 Cents White Day Lily, Lemon Day Lily, Blue Day Lily, Variegated-Leaved Day Lily <br> A COMPLETE COLLECTION OF FINE VARIETIES

## DAY LILIES

The Day Lilies are superb autumn flowers, desirable for planting on the side of a lawn or at the edge of shrubbery. They do well in shade and are much prized on that account. The plants may be set in autumn, and protected by a light covering of leaves the first winter after setting out.
White Day Lily-Funkia Alba, Broad, light green leaves. Flowers large, pure white, fragrant. Each, 20 cents ; dozen, $\$ 2.00$.

Each. 25 cents ; dozen, $\$ 2.50$.
Lemon Lily-Hemerocallis flava. A fine, hardy plant, producing an abundance of large, fragrant, golden-yellow flowers.

Each, 20 cents; dozen, \$2.00.

## THE MAGIC FLOWER <br> Lycoris Squamigera

When Nature awakes from her winter sleep the anxious gardener looks for the first appearance of budding life, and along with the Snowdrop he finds the deep green foliage of the Magic Flower cutting like a narrow sword through the frozen soil, making a brave showing with the lilies that have pushed their way into the warm sunshine. The eager gardener looks daily for a sign of an expanding bud; other flowers fill the air with fragrance; at last the hot days of July come-and still no sign of blooming. Soon the foliage turns brown and disappears, Wait a bit longer-and the flower stalks spring like magic from the ground, growing like slender pillars that are soon crowned with a mass of lilyshaped flowers from six to sixteen in number, charming in their delicate coloring of lilac-pink, shaded and pencilled with clear blue.

This beautiful and peculiar plant, which had its origin in China, is perfectly hardy, and will grow in any garden with but little care and attention.

When we first introduced Lycoris Squamigera we called it "Magic Flower," a title by which it is generally known today. Its name is peculiarly fitting, owing to its habit of throwing up its flower stems after the foliage has died; one of the most unique and interesting facts in plant life.
Each, 25 cents; dozen, $\$ 2.50$. See foot note.

Each, 15 cents; two for 20 cents.

## DRACAENA

Dracæna indivisa. This variety is used very extensively as a center plant for vases, baskets, etc. Its foliage is gracefully arranged and contrasts nicely with other foliage and flowering plants. Each, 20 cents; dozen,

The delicately rich and grateful odor, in connection with the beautiful colors and perfect outhne of the Carnation, secures for it a prominent place in all collections of flowers, either for the house or garden. It is one of the sweetest of flowers and yields an abundance of bloom all summer. The plants may be potted in September and Uctober, watered and shaded a few days, and they will hloom all winter, in a cool, sunny window. Our list embraces the best of the standard varieties.

Strong field grown plants in bud, ready to bloom, each, 35 cents; dozen, $\$ 3.75$.
Pot plants, each, 20 cents; dozen, $\$ 2.00$.
Beacon. Beautiful shade of scarlet. Flowers very large. Stems long. Enchantress. Delicate shade of shell-pink, deepening towards the center; very large flower.
Enchantress Supreme. Color clear shell-pink. Flower large. A grand new varies:
Harlowarden. Large flower of bright crimson, with scarlet shadings. Lady Bountiful. Pure glistening white.
Mrs. Thomas W. Lawson. Immense size, from three to four inches in diameter, with long, strongstems. Bright cerise-pink, lighting up beautifuily under artificial light.
Red Jacket. A strong, robust grower; color brilliant scarlet. Rose Pink Enchantress. Color rose pink; large flower.
Variegated Lawson. White, beautifully striped with cerise-pink.
White Enchantress. Large pure white. Very free flowering. White Wonder. One of the largest white Carnations; a strong grower. Winsor. Silvery pink. One of the best Carnations.

We prepay transportation charges on plants at these prices except where noted.
See page 1 and inside front cover

## VICK'S FERNS

Ferns are an absolute necessity in almost any scheme of plant decorations for house, window, or conservatory. No other plant is more useful for producing a graceful effect than the Boston Fern or some of the newer kinds listed below. If planted in rich soil and given plenty of water, Ferns will grow rapidly and furnish an abundance of rich green foliage, a desirable adornment for any room.

## TABLE FERNS

Six of the first seven varieties are sufficient to fill a fern dish eight inches in diameter. Each, 15 cents ; dozen, \$1.50.
Adiantum cuneatum. The popular Maiden-Hair Fern.
Aspidium Tsussimense. A handsome species, with dark green foliage.
Cyrtomium Falcatum. Large green glossy leaves.
Polystichum setosum. Foliage dark green.
Pteris Cretica albo-lineata. A beautiful, useful variegated variety. Leaves green and white.
Pteris serrulata. Glossy deep green foliage.
Pteris Wimsetti. Fine for fern pans and house culture; finely crested.

## Scholzeli-The New Plumed Fern

In this new Fern, a sport from Scotti, we have all the desirable features of the parent, with plumy fronds similar to the Ostrich Plume Fern. Its leaves are held erect with a graceful arch, forming a plumy globe, which is as pretty in a small plant as it is in a specimen plant of the largest size. Each, 25 cents; large plants, each 75 cents.

## Boston Drooping Fern

One of the most satisfactory of all decorative plants for house culture. The handsome green fronds attain a length of four to five feet, and droop gracefully on every side. Each. 25 cents; large plants, 75 cents.

## Dwarf Boston Fern, Scotti

A very dwarf and compact form of the Boston Fern. The fronds are short and narrow, of a graceful recurving form. Plants of small size make nice specimens in a short time. For house culture we recommend it as a plant that will please all. Each, 25 cents; large plants, 75 cents.

## Roosevelt Fern.

The division of the wide drooping fronds are beautifully undulated, the fronds being more graceful than those of the Boston Fern. Strong, rapid grower. A new variety and one of the finest.

Each, 25 cents; large plants, 75 cents.

## Teddy Junior, Fern

Fronds beautifully undulated like those of the Roosevelt, but the plants are very dwarf and compact. Each, 25 cents; large plants, 75 cents.

## Whitmani Fern

The plumy appearance of the foliage makes this variety unquestionably the most striking among all the Ferns. The plant is quite dwarf, and the leaves very wide. A grand Fern.

Strong young plants, each, 25 cents; large plants, 75 cents.

VHITMANI FERN

No other plants are more graceful and elegant than Fuchsias. Their contrasting colors, white, carmine, rose and purple, make them very attractive. The plants bloom so profusely that they require an abundant water supply. Therefore, plants should be wet thoroughly and often. While the plants are not adverse to moderate light, they should be protected from the strong rays of the sun, which would absorb too much of their moisture and cause buds and blossoms to fall. Too hot and too dry, gaseous air will have the same injurious effect. They prefer the ordinary temperature of the living room, where frequently they attain immense size and yield hundreds of blossoms on a single plant.

$$
\text { Each, } 20 \text { cents ; dozen, } \$ 2.00 \text {. }
$$

Avalanche. Corolla violet, sepals crimson.
Bouquet. Flowers of beautiful form, sepals a clear coral color, corolla blue. Jeanne Summary. Tube and sepals bright crimson scarlet, corolla white. Jupiter. Tube and sepals scarlet; corolla ricl royal purple. Extra large size. Little Beauty. Tube and sepals bright red; corolla rich purple.
Mary. The drooping flowers, over two inches long, are a brilliant crimsonscarlet, and stand out prominently agianst the dark green foliage.
Rosania Patrie. Tube and sepals carmine ; corolla white.
Storm King. Dwarf grower. Tube and sepals red; corolla white.
Victor Hugo. Flowers large, very double; sepals bright crimson; the center or corolla violet purple, marbled with red. A unique and beautiful flower.

## OLEANDER

Each, 25 cents ; two for 40 cents.
Splendens variegata. Large, double pink flowers, produced early in the season; glossy green leaves with a broad margin of creamy white. Double Pink. The old popular variety

## LITTLE GEM CALLA

A dwarf variety of the old Calla, eight inches high. A free bloomer. Each, 20 cents; two for 35 cents.

Teddy Junior Ferns are exceptionally good for table decorations and other locations where there is but little space

# CHRYSANTHEMUMS 

## Hardy Double Pompon Varieties

Each, 20 cents; dozen, $\$ 2.00$.

These are the very best of all Chrysanthemums for outdoor planting, and are growing in popularity each year. In addition to their great beauty and diversity of color, their great value lies in the fact that, being perfectly hardy, they give an abundance of bloom in the late fall after most other autumn flowers have been cut down by frosts, by which they are not affeeted. They may frequently be seen in full bloom in gardens in and around Rochester as late as the middle of November. The plants may be set out either in the fall or in the spring. They succeed in almost any ordinary garden soil, and will live for years.
Hardy Chrysanthemums do not obtain the size of the large flowering varieties, but they make up in quantity of bloom what they lack in size. The colors range from the delicate pinks to yellow, amber, white, maroon; in fact, almost every shade will be found in the Pompon Chrysanthemum. The sprays of bloom are extremely graceful and beautiful. Valuable for cut flowers.

Allentown. Bronze yellow.
Astarte. Bright golden amber.
Diana. Large flower; the finest pure white.
Edna. White, with ptnk shadings and yellow center. Gold Standard. Golden yellow.

James Boon. Pure white.
Julia Lagravere. Crimson-maroon.
Lilla. Tall; deep red; fine for cutsprays
Miss Julia. Very double, bronze yellow.
Orea. Light yink,

## Large-Flowering Varieties

Each, 20 cents; dozen, $\$ 1.25$; eighteen for $\$ 2.00$.

HARDY
DOUBLE
CHRYS-ANTHEMUMS anthemums will bloom in October and November out of doors. But a good way is to cultivate the plants in the garden, with plenty of room in good rich soil until the first of September, when they may safely be transferred to pots for indoor growing. Give a thorough watering and set in a shady place for a few days, after which they may be exposed to the full light in a cool room.
Pacific Supreme. A beautiful shade of pink; early. Chrysolora. Fine golden yellow; large flower; early. Pink Ivory. Beautiful shell pink.
Red Duckhan. Very largs flower; purplish crimson. Unaka. Beautiful shade of lavender pink; very early. White Coombes. Pure white of largest size.

Comoleta. Bright yellow. Fine for pot culture.
Ivory. Dwarf. Free flowering, snow white, incurved. Major Bannaffon. Soft yellow, incurved type ; large. Mrs. Wm. Duckham. Beautiful golden yellow.

## VICK'S GERANIUMS

Each, 20 cents; dozen, $\$ 2.00$.
A. Carre. Crimson scarlet. Jules Lematrie. Light pink. Jumbo. Very fine scarlet. Marguerite de Layre. A fine, strong, free grower; pure white flowers Mrs. E, G. Hill. Bright salmon with light shading at center.

DOUBLE
Alphonse Ricard. Bright orange-red. Trusses very large.
Beaute Poiteveine. The color is a bright salmon-pink.
Countess de Harcourt. Pure snow-white.
Heteranthe. Bright scarlet.
Jean Viaud. Flowers semi-double, brilliant rose, beautiful white spots.
La Pilot. Very dark scarlet.
E. Anatole Roseleur. Deep rose pink.

Madame de Comtesse de Baume. A charming bright pink.
Madame Jaulin. Center of flowers delicate pink, bordered with pure white. Madame Recamier. Snow white.
Madame Laudrey. Clear salmon, center shading to copper, with white eye. Madame Buchner. Double; snow-white. A strong grower.
S. A. Nutt. Double. Brilliant deep blood-red, with maroon shadings.

Rather tall; vigorous grower. Truss large. One of the finest bloomers.
Toronto. Bright salmon. Flowers and truss of large size. A grand bedder.

## TRI-COLOR

Mrs. Pollock. Leaves variegated; flowers scarlet.

## DOUBLE IVY-LEAF

This class has thick, glossy, ivy-shaped leaves. The plants are drooping in habit, and excellent for baskets, vases, and house plants.
Jeanne d'Arc. White, suffused with lavender. Double.
Leopard. The color is clear lilac-pink, the upper petals being clearly blotched with deep crimson, and marked with maroon dots.

## SWEET-SCENTED

Dr. Livingstone. Leaves finely divided, very fragrant.
Rose. This is one of the most desirable of the scented varieties.

## BRONZE

The leaves of the Bronze Geraniums show the most beautiful shades of yellow or brownish red; the foliage being as handsome as the flowers.
Black Douglas. Flowers salmen. Foliage golden yellow; red zone. Exquisite. Leaf light yellow ground, chocolate zone. Flowers salmon.

PELARGONIUM

or<br>Lady Washington Geranium<br>The New Everblooming Pelargonium, Easter Greeting

PELARGONIUM, EASTER GREETING

## PRIMULA

(Primrose) Obconica grandiflora
Perpetual blooming. Bears large trusses of flowers on large stems, well above the foliage; color a pale lilac and pink. Each, 20 cents; 2 for 35 cents.

## Primula Forbesii

Needs but little care. It forms a dense rosette of fleshy leaves, from which spring the flower stems about twelve inches high: delicate rosy-lilac flowers produced in great abundance.

Each, 20 cents; 2 for 35 cents.

## FRAGRANT OLIVE

Olea fragrans. This rare and very choice house plant resembles the Orange in growth. Thick, glossy green leaves and deliciously fragrant flowers. Thrives best in a moderately cool room.

Each, 20 cents; two for 35 cents.

## Ponderosa Lemon

## This wonderful Lemon is a true Ever-bearing Variety

On a plant six feet high no less than eighty-nine Ponderosa Lemons have been at one time; the tree was in bloom, and at the same time had fruit in all stages of development from the size of a pea up to the ripe fruit. Fruit weighing over four pounds has been taken from this tree. The lemons have very thin rind for such large fruit. - It is the juiciest of all lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It fruits when quite small. Makes a splendid house plant.
Large, thrifty plants, each, 35 cents ; 2 for 60 cents.

## PASSIFLORA-Passion Vine

## PALMS

Palms will do well at a window where there is little or no direct sunshine. A regular, but not excossive, supply of water and a fair light are all the plants demand during the cool season. The soil should be a substantial fibery loam. A daily syringing of the leaves is an advantage, but in winter once a week is sufficient. If kept in a living-room with dry furnace heat, daily syringing or spraying the leaves is advisable. Below we list the two most popular and hardy palms, they having given better satisfaction than many others.

| First Size, | 18 -20 inches, | $\$ 1.25$ |  |
| :--- | :--- | :--- | :--- |
| Second " | I2 | " | .85 |
| Third " | 3-inch pots, | .35 |  |

Sent by Mail or Express, charges prepaid, at these Prices
Kentia Belmoreana. This palm is of dwarf habit, with beautiful spreading leaves of a glossy rich green color. It will stand a great deal of ill usage and maintain a good appearance.
Kentia Forsteriana. The beautiful "Thatch Palm." Similar to K. Belmoreana; but the petioles are a darker gxeen and the leaf divisions broader. A handsome Palm for table decoration.

## OTAHEITE ORANGE

A dwarf orange, which grows, blooms, and fruits freely in pots, when only a foot or two high. Fruit about one-half the size of ordinary oranges. The blossoms are produced in great abundance, delicate and beautiful in color, and of a delicious perfume.

Strong plants, each, 35 cents.

## SMILAX

A very graceful climbing plant, with dense green foliage. Very fine tor house culture. Each, 20 cents; two for 35 cents.

A class of rapid growing climbing plants well adapted for house culture in winter or for training over porcbes, etc., in summer. The flowers are about four inches in diameter, petals pear-shaped and very symmetrically arranged. Constance Elliott. The flowers are pure white.

## Each, 20 cents; two for 35 cents.

## RUBBER PLANT

Ficus alastica. One of the best plants grown for table or house decoration. It succeeds well with ordinary treatment. The glossy green leaves seem especially formed to resist the dust and gas to which plants in dwellinghouses are exposed.

Strong plants, 50 cents, 75 cents, 85 cents, and $\$$ I. 00 each.

## JASMINE

Jasminum grandiflorum. A favorite greenhouse climber and house plant everywhere; one of the sweetest of flowers. Foliage fine; flowers white, star-shaped and very fragrant, blooming from November till May. Easy of culture. Each, 20 cents.

## UMBRELLA PALM

Cyperus alternifolius. A beautiful, easily-grown plant, that is admirably adapted to many different modes of culture. It makes a very showy plant for pot culture, is one of the best for ferneries, while for the aquarium it is without an equal. Large plants, each, 20 cents; two for 35 cents.

High quality and low prices seldom go together. There is an exception to the rule this year, however, for we have never had nicer plants nor rarely ever sold them at any lower prices. We urge that you place your order as early as possible.

A Palm, a Dwarf Orange, or a Rubber Plant will add a touch of artistic decoration to almost any room

## EVERBLOOMING HYBRID TEA ROSES

The day has come when the Hybrid Tea or Everblooming variety has found its place at the head of all roses for garden culture. Here we have a rose with the free flowering qualities of a Tea Rose, the hardiness necessary for outdoor planting, and the rich, brilliant and varied colors of all other classes. Too much cannot be said in praise of the roses belonging to this wonderful family. A garden of these varieties is a vision of beauty from May until late fall.

If planted early this fall and protected by covering the roots with leaves or coarse manure they will get sufficient growth to bloom freely next summer.

Special cultural directions on the planting and care of the Everblooming Roses sent with each order if asked for.
Madam Ravary. Very free flowering. A golden yellow Everblooming Hybrid Tea Rose, having long, pointed buds that open into large, full, orange-yellow flowers, which has made many friends both in this country and in Europe.
Persian Yellow. The flowers are nearly double and borne in immense clusters. The color is a deep golden yellow. The plants are a perfect mass of flowers in June.
Pink Killarney. A rose that has won fame both as a hardy garden variety and as a winter cut flower. The long, pointed, sparkling, brilliant pink buds and the very double full blown flowers are very handsome. As a free flowering, hardy, strong growing variety it is one of the best that car be planted.
Prince Camille de Rohan. Rich, dark, velvety crimson, shading tc maroon; very double and very fragrant.
Soleil d'Or, or Sun of Gold. This magnificent variety is perfectly hardy, robust and vigorous, making a growth to about three feet in height. The buds are conical-shaped, of a lovely hue, the flower when expanded being well incurved and about three and one-half inches in diameter. Superbin color, varying from gold and orange-yellow to reddish gold, shaded with nas-turtium-red.
Vick's Caprice. A variegated, hardy Perpetua. Rose; large, fragrant and attractive flowers of satiny-pink, distinctly striped and shaded with white and bright carmine; full and deep; blooms at frequent intervals during the entire season; very healthy and vigorous.
William R. Smith. A heavy bearing Hybrid Tea Rose of the highest quality. Velvety, cream white petals with delicate pink shadings, buff yellow at base. The center of the bloom is a heart of pink, beautiful in form and very fragrant. Foliage of a glossy rich green, with stems, holding the buds and flowers, strong and sturdy

## Pot Plants for House Culture

## Hardy Everblooming Roses <br> Each, 20 cents ; doz., $\$ 2.00$

Freiherr Von Marshall.
Gruss en Teplitz. Color rich scarlet ; very fragrant.
Maman Cochet. Rich pink, changing to silvery rose.
Mons. R. Arnand. Deep pink, beautifully tinted; finely formed.
Ophelia. Salmon-flesh, shaded with rose.
Sunburst. Orange copper or golden yellow; strong grower.
Wellesley. Bright, clear salmon-rose; very full.
White Cochet. Beautiful snowy white.
White Killarney. Soft, pure white; very popular.
Every season we make additions to our Rose list of the best of the new varieties. These will greatly please

Wilte
William Shean. Largest pink Hybrid Tea; beautiful.

## Everblooming Tea Roses <br> Each, 15 cents; doz., $\$ 1.50$

Lady Hzillingdon. Golden yellow; long, pointed buds.
Madame Camille. Kosy flesh color; very large.
Madison. Creamy white, large flowers; better than Bride.
Mrs. Ben. R. Cant. Clear, bright rose-red; all season.
Perle des Jardins. Deep yellow; very popular.
Sunrise. Orange and copper, scarlet and yellow: very beautiful.

## THE RAMBLER ROSES

Extra strong 2 -year plants, each, 50 cents; dozen, $\$ 5.00$.
The Ramblers are unsurpassed for training on walls, verandas, trellises, arbors, and pillars, and as specimen pot plants for winter forcing. Flowers are well-formed and are produced in greal profusion, presenting an immense mass of bloom. When in bloom the plants are literally covered with flowers. Crimson Rambler,

White Rambler
Yellow Rambler,
Pink Rambler.
Dorothy Perkins. In foliage, growth, and habit of blooming it is remarkably like the Crimson Rambler, but the flowers are more double and of a beautiful shell-pink color, and hold a long time without fading. The flowers are also sweetly scented, a characteristic not possessed by most Roses of the Rambler family.
Helene, a Climbing Rose of rare beauty. A seedling from the Crimson Kambler. It is of very robust growth, throwing up canes ten to fifteen feet high in a single season. The color is a pure soft violet-rose almost blush; base of petals faint yellow. The buds are carmine, finely ciliated or mossed, and are borne in clusters of from twenty-five to fifty
The Philadelphia Rambler. A cross between the popular Crimson Rambler and the fiery crimson Hybrid Perpetual Victor Hugo, and identical with the Crimson-Rambler except that the color is brighter crimson, and never fades; a valuable acquisition to the climbing roses.
Lady Gay, Rose of the highest merit. Resembles Crimson Rambler in habit and general effect. The flowers are of a delicate cherry pink color, fading to soft white, of good size and delicately perfumed. The foliage is very profuse and of a glossy deep green shade. The plant is a vigorous grower and perfectly hardy.
Tausendchon-Thousand Beauties. Tausendschon well deserves its name, "The Rose of a Thousand Beauties." Its free flowering qualities and beautiful white and delicate pink blossoms make it a favorite. It is grown in large quantities for winter forcing. The flowers are borne in large clusters from June to August. Each flower measures about one and a half inches in diameter, and is of a beautiful soft rose color, changing to rosycarmine. The plant is of strong, vigorous growth, perfectly hardy, and a good variety to plant where a strong climber is desired. The shining, dark green foliage is never.attacked by disease or insects.

## CLIMBING AMERICAN BEAUTY

This is known as the best hardy climbing rose ever introduced. The flower is as large, as beautiful and as double as the American Beauty which is so well known as one of the most attractive roses, that it does not need a description. The bush grows rapidly, is very hardy, has fine, abundant foliage, blooms profusely. Has proven very satsfactory wherever it has been planted. Each, 60 cents; doz., $\$ 6.00$.

## CAROLINE MARINESSE

## A Grand, Everblooming Hardy Rose

The flowers are creamy white, medium size, very double and sweetly teascented. There is not a week from late in May till the middie or latter past of October that large quantities of blossoms cannot be picked from these plants. Growth being low and somewhat spreading, makesit especially valuable for the borders of beds and for massing. Unequalled for cemetery planting. Each, 50 cents ; doz., \$5.00.

FRAU KARL DRUSCHKI-SNOW QUEEN-(See page 30) Strong, healthy field grown bushes, well branched and

## Dwarf or Baby Rambler Roses

Each, 50 cents ; doz., \$5.00

Crimson Baby Rambler. A Dwarf Rose that blooms from early June to December. This beautiful rose produces clusters of flowers as large as the old Crimson Rambler. The color is a charming brilliant red, and it blooms with great profusion. As a pot rose it has few equals, as it blooms continuously. Strong young pot plants, each, 15 cents ; doz., \$r.50. Strong two-year field grown plants, each, 50 cents; doz., $\$ 6.00$. White Baby Rambler. This rose is a little beauty, with pure white double flowers. A constant bloomer and as grand a bedder as the Crimson Baby Rambler. Two-year dormant plants, each, 50 cents; doz., $\$ 5.00$.

Pot plants, each; 25 cents ; doz., \$2.50.
Tausendschon. It well deserves its name, "The Rose of a Thousand Beauties." Its free flowering qualities and beautiful wbite and delicate pink blossoms make it a favorite. Blooms continuously from June until August.
Yellow Rambler. Deep golden-yellow flowers in large clusters, covering the entire bush

## Baby Ramblers

## Pot Plants for Winter Blooming

 Each, 20 cents; doz., $\$ 2.00$Baby Rambler Pink Baby Rambler Crimson

Baby Rambler Yellow Baby Rambler White

## HOW TO PLANT ROSES IN THE FALL

The autumn season, about the first of October, is especially favorable for transplanting the hardy roses. The plants should be dormant; that is, the growth should be finished and the plants have dropped their leaves, or at least the leaves should have been removed from the hard and ripened wood. In this condition there can be no drooping of the plants, all wounds tend to callous and heal over quickly, and the plants are ready to make some new roots before cold weathersets in.
Insetting the plants remove with a sharp knife any portions of injured roots, leaving a smooth cut surface. Be sure and plant in deep-spaded, mellow, and well-enriched soil, where no water will lie. After planting draw some soil up into a mound around each plant and then cover the ground with a good thickness of stable litter, leaves or evergreen boughs. Thus planted they are ready to start off into new growth at the earliest opportunity in the spring. Early in the spring the tops should be cut back sharply, leaving only some six or eight inches of stems.
well rooted; all ready for planting outdoors or in pots

A small amount of money spent on Shrubbry will beautify your home and add much to its real worth

## ALTHEA

Rose of Sharon. Reautiful erect-growing shrubs, of the easiest culture, bearing large showy flowers in early fall. Very desirable because of flowering when few other shrubs are in bloom. Grows three feet high. Double Red, Double White and Double Piak, each, 35 cents; dozen, \$3.50.

## BERBERIS-BARBERRY

Japanese. A handsome low-growing form of the Barberry, of Japanese origin. Foliage abundant, leaves small, obovate; flowers reddish; berries bright crimson. In autumn the leaves turn a bright red, making a fine display. A beautiful plant for the lawn or the front of the shrubbery, or for a lowgrowing ornamental hedge. Each, 35 cents; dozen, \$3.50.
Purple-Leaved. A very handsome shrub, growing from three to five feet high, with violet-purple leaves and fruit. Very fine when planted in groups or used as a hedge. 35 cents each; dozen, \$3.50.

## CALYCANTHUS or Sweet-Scented Shrub

Very desirable on account of the peculiar and very pleasing fragrance of its wood; its foliage is rich; flowers of a rare chocolate color, with an agreeable odor. The Calycanthus starts blooming in June and continues to bloom $2 t$ intervals throughout the summer; very desirable. Six to eight feet.

Each, 35 cents.

## CLETHRA ALNIFOLIA

Very bardy; blooms every seascn without fail ; cold never harms it ; flowers pure white, in spikes three to six inches long. A bed of Clethras will perfume the air for a long distance; a single sprig will fill a room with its delightful fra. grance. It is a neat, upright-growing shrub, and is not only valued for its beauty and sweetness, but as a food plant for the the honey bee it is equal to clover; the honey being almast white, thick and of fine flavor. The plant is very easy of cultivation; never fails to bloom after a hard winter, and is worthy of a prominent place in every garden. Each, 35 cents. Dozen, $\$ 3.50$.

## CORNUS or Dogwood

Cornus Elegantissima. One of the finest variegated shrubs; of rapid growth; the leaves are broadly margined with white, while some are entirely white. Each, 35 cents.
Cornus Mascula. (Cornelian Cherry). A small tree, native of Europe, producing clusters of bright yellow flowers early in spring before the leaves start. Each, 35 cents.

## ELAEAGNUS or Oleaster

Elæagnus Longipes. (Japan Silver Thorn). This is a remarkably beautiful new shrub from Japan. In July the plant is covered with bright red berries of large size and edible, the flavor being pungent and agreeable. Laden with fruit the bush is highly ornamental, and the fact that its leaves remain fresh till late in the autumn gives it additional value for garden decoration. Each, 35 cents.

## DEUTZIA

Crenata latifolia. New, Large panicles of eighteen to twenty single blossoms. The flowers are pure white with a center of golden yellow. Very attractive. Strong plants .......... Each, 35 cents; doz. $\$ 3.50$
Crenata Magnifica. New. A great acquisition. The pure white double flowers are over an inch in diameter. The plant is vigorous and the flowers are borne in large trusses. Strong plants . . . Each, 35 cents; doz. $\$ 3.50$ Lemoinei. Flowers single, pure white, and entirely covering the branches. Strong plants. . . . . . . . . . . . . . . . Each, 35 cents; doz. $\$ 3.50$ Pride of Rochester. One of the finest varieties, producing large, double white flowers; the backs of the petals being slightly tinted with rose. Blooms early in June. Strong plants . . . Each, 35 cents; doz. $\$ 3.50$
Gracilis. Blooming in May or June, it forms a round dense bush, covered with snow-white flowers........... Each, 35 cents ; doz. $\$ 3.5^{\circ}$
Candida. Profuse-flowering; generally hardy, and well adapted to ordinary soils. Double pure white flowers, borne in panicles. Strong plants

Each, 35 cents; doz. $\$ 3.50^{-}$

## GOLDEN BELL

Forsythia Fortunei. These splendid old shrubs, which eventually grow to a height of from eight to ten feet, light up the garden with glinting masses of yellow before the leaves appear in the early spring. Their bright golden flowers, often appearing before the snow is gone, vie with the Crocus as harbingers of spring. Each, 35 cents.
Suspensa. (Weeping Golden Bell). The long, willowy branches which arch gracefully over to the ground, are covered to the tips with trumpet-shaped yellow fowers in early spring. Each, 35 cents.

## WEIGELA

Candida. This is the very best of all the white flowering Weigelas. A strong, upright, erect grower; flowers pure white, and produced in great profusion. Commences to bloom in June and continues throughout the entire summer months. Each, 35 cents ; dozen, \$3.50.
Eva Rathke. A charming new variety; flowers a beautiful, distinct, clear shade of crimson. Blooms twice in one season.

Each, 35 cents; dozen, \$3.50.
Rosea. A hardy and beautiful shrub, bearing in May a profusion of rosecolored flowers. Each, 35 cents; dozen, $\$ 3.50$
Variegated. Leaves variegated, green, yellow and pink. Flowers delicate rose and pink. A charming shrub. Each, 35 cents; dozen, $\$ 3.50$.

## EVERBLOOMING BUTTERFLY BUSH

A magnificent new shrub that gives unbounded satisfaction wherever grown. It blooms from early summer until cut down by hard frosts. Will do well on any soil, and is bound to become a general favorite. The flowers are borne on long cylindrical spikes which are produced in great profusion throughout the sumraer. The color is a soft shade of lilac and the flowers have a pleasing fragrance which" is particularly attractive. The plants make a strong growth, blooming the first season after spring planting. They grow from two to four feet high. In the spring the old plants should be cut back to the ground, after which they will throw up a fresh, strong growth.

Strong plants, each, 25 cents; dozen, $\$ 2.50$. Extra strong plants,
each, 50 cents ; dozen, $\$ 5.00$.

The Deutzia, a most beautiful and hardy shrub, should have a prominent place in the border and on every lawn

## SPIREA, Meadow Sweet

The Spireas are the best known and most popular of all the flowering shrubs The different varieties cover a long season of bloom and produce blossoms of many different colors. We give a list of the best varieties and colors.

Strong Plants, 35 cents: dozen $\$ 3.50$
Arguta. Flowers clear white and freely produced. The very best early flowering white Spirea grown.
Anthony Waterer. Very low growing, and bearing flat heads of deep rose blossoms all through the late summer. Grows six feet high.
Bumaldi. The ever-blooming Spirea. Dwarf and compact in habit; leaves are bright green, with variegations of yellow; flowers deep pink. Blooms throughout the Summer and Autuma. Very desirable shrub.
Opulifolia. (Nine Bark). June. A strong growing shrub, with white flowers along the stems.
Aurea. (Golden Spirea), One of the best of our yellow leaved shrubs. Golden yelluw during the whole Summer.
Thunbergii. (Thunberg's Spirea). April and May. Low-growing, rounded form, delieate, drooping, yellowish green, lanceolate leaves, which take on and retain the most beautiful tints in Autumn. Small abundant white flowers in May. For planting in front of porches it has no rival.
Prunifolia or Bridal Wreath. Pure white flowers, resembling daisies, flowering in May and remaining in bloom for weeks, Very hardy and of dwarf habit. Grows to a height of from two to three feet.
Van Houtteii. June. One of he finest and most satisfactory of all Spireas, either singly or among other shrubs. It forms a round, graceful bush with archng branches, which in June are set from tip to tip with beautiful white blossoms. A shrub which cannot be over praised. Picture on Page 32.

## HYDRANGEAS

Arborescens. This magnificent American Hydrangea is the most beautiful hardy flowering shrub introduced in many years. It attains a height of five to six fect, and about the same breadth. It is of more graceful habit than Hydrangea paniculata grandiflora. The form of the panicle is much like that of Hydrangea Hortensis. Trusses large and beautifully formed; the blooms are of the very largest size, pure snow white; the foliage is finely finished. Fine, strong, well-grown plants Each, 35 cents; doz. $\$ 3.50$ Paniculata Grandiflora. One of the finest hardy shrubs in cultivation.The flower trusses are immense heads from nine to twelve inches in length and nearly as broad. Color purest white, changing to deep pink as the season advances. It blooms in July, at a time when no other shrub is in flower and remains beautiful until destroyed by frost. As hardy as a lilac bush. The plants we offer will bloom the first season. First size,each, 50 cts.; two for 80 cents. Second size, each, 30 cents; doz., $\$ 3.00$. Parcel Post or Express prepaid on all shrubs at these prices.

## LILACS

Lilacs have- always been popular on account of their hardiness, vigorous growth, abundant foliage and graceful and luxuriant sweet-scented flower panicles. The large flowered Red, White and Purple, are among the most desirable tall growing shrubs, growing eight to ten feet in height. The named varieties grow somewhat smaller.
Large flowered, red. Purple-red flowers, standard variety. 35 cents each.
Large flowered, purple. Bluish-purple flowers, standard variety; always good. 35 cents each.
Large flowered, white. Cream white flowers; very fine. 35 cents each.
Pres. Grevy. The most popular blue variety. A profuse bloomer; flowers duuble, blue and very fragrant. 75 cents.

ERIANTHUS
Ravennae. Hardy Pampas Grass. Grows from nine to twelve feet high, frequently throwing up from 30 to 50 flower spikes. Each, 25 cents; dozen, $\$ 2.50$.
FORGET-ME-NOT
Myosotis palustris. The true perennial Forget-Me-Not. A variety that is always in flower. Each 15 cents; dozen, $\$ \mathrm{x} .50$.

## GENISTA TINCTORIA-(Dyer's Greenweed) <br> Plants twelve inches high; are covered in the summer months with bright

 yellow pea-shaped flowers. Each, 20 cents; dozen, $\$ 2.00$.
## GERANIUM SANGUINEUM

Eighteen inches high; blooms the entire season; bright crimson flowers. Each, 20 cents ; dozen, $\$ 2.00$.

## GAILLARDIA or Blanket Flower

Grandiflora. Among the most attractive and effective of our hardy perennial plants. Will thrive in almost any position or in any soil. One mass of bloom from June to October. The gorgeous flowers, two to three inches in diameter, dark red-brown in center, with bands of crimson-orange and vermillion, are borne on long stems. Each, 20 cents; dozen, \$2.00.

## HELENIUM-Sneeze Weed

Autumnale superbum. Valued for its profusion of golden-yellow flowers. Long season of bloom and useful for cutting.

Each, zo cents; dozen, \$2.00.

## HELIANTHEMUM VULGARE (Sun, or Rock Rose)

A most desirable hardy, evergreen, low-growing plant. Suitable for the border, rockery, or a dry sunny location. During the month of July the plants are covered with masses of various colored bloom.

Each, 20 cents; dozen, $\$ 2.00$.

## HERBS

English Lavender. Each, 20 cents; two for 35 cents
Mammoth Broad-Leaved Sage. Each, 20 cents; two for 35 cents. Our plants are packed at our greenhouses without rehandling, which insures their reaching you promptly in fine condition

## THE IRIS, or Fleur-de-Lis

THE IRIS, or Flower-de-Luce, the Fleur de-lis of the French, is one of the most beautiful of hardy garden plants. There are several distinct species of these plants, natives of different regions, each presenting many garden varieties, the flowers of which are of peculiar and handsome form, beautifully colored and marked, and equaling in beauty the most showy orchids. The plants are hardy in the garden. Some kinds are desirable for the greenhouse.

Iris will grow almost anywhere; in out-of-the-way corners, among shrubbery, or wherever they have a reasonable amount of soil and moisture. They require very little care, but will remain in the ground from year to year, gradually spreading, and increasing the size and beauty of the floral display.

English, Spanish and Pavonia varieties are bulbs. German and Japanese Iris are plants or roots.
English. (Angelica). Large, bandsome flowers.
Each, 5 cents; dozen, 35 cents ; 100, $\$ 2.50$.
Spanish. (Hispanica). Well adapted for pot culture and forcing in the winter. Three for 5 cents ; dozen, 15 cents; 100, 60 cents.
Pavonia. (Peacock) Small, beautifully marked flower; desirable for window culture. Three for' 5 cents; dozen. 35 cents; ; Ioo, $\$ 7.50$. Postage or Express paid at these prices.

## GERMAN IRIS, Fluer-de-Lis

A good old flower, handsome and as many hued as some of our finest orchids, and perfectly hardy. They bloom in May and Jnne, when there is a scarcity of other flowers. Plant three inches deep.

Each, 20 cents; dozen, $\$ 2.00$. Sent to you postpaid
Celeste. Light blue.
Gesneriana. White and lavender.
Madame Chareau. White.
Madcap. Lavender and purple.
Souvenir. Old gold and purple, tall grower.
Pharaon. Blue, shaded rose color.
Florentina. White lavender vein.
Canary. Rich yeliow.
Atropurpurea. Old blue; very fine.
Velveteen. Golden bronze and rich purple.
If there is anything more beautiful or graceful than Japanese or German Iris, we have failed to have our attention called to it. Lovers of fine flowers rightly set a high value on the exquisite beauty of the orchid; but to our mind some of the Iris equal, if not surpass, the orchid in beauty of shape and delicacy of coloring. Fortunately the price of the most beautiful Iris is within the reach of all. Our list comprises some of the finest varieties grown. A few bulbs planted this fall will give an ever increasing amount of delight as the bed grows in size and beauty.

JAPANESE IRIS
Orders for plants are filled right at our greenhouses where the plants are grown. Prompt service. Fresh plants

## HARDY POPPY - Papaver

## Fine Plants, 20 cents each; \$2.00 per dozen.

Iceland Poppies. The plants are perfectly hardy, and bloom the entire season• The flowers are about the size and shape of the well-known Shirley Poppy, and are borne on long wiry stems. The flowers, of silken texture, nodding on slender stems, produces an exquisitely dainty effect. Charming as cut flowers, lasting well if cut when the buds are opening. White, yellow and orange.
Oriental Poppies. The single large Oriental Poppy is one of the most striking and showy of all hardy garden plants. The tall stems, three feet in height, bear great flowers of brilliant scarlet six or eight inches across. The plants thrive well either in the full sun or in partial shade. They are a great addition to the hardy border, and are of especial value among shrubbery, lighting up the usually dark and somber clumps of shrubs. The flowers are splendid for cutting, lasting well if they are cut as they are opening. Flowers in June,

## SWEET WILLIAM

The best varieties of Sweet William are of exceedingly beautiful colors, very large and almost perfect in form, with trusses of great size. They are fine cut flowers. The plants are perfectly hardy. Each, 20 cents; dozen, $\$ 2.00$.

## CENTAUREA MONTANA ALBA

Grows 15 to 18 inches high, blooms June to August. Flowers similar in shade and appearance to the Cornflower. Does well in an open location and produces an abundance of bloom. Fine for border; excellent for cutting.

Each, 20 cents; dozen, $\$ 2.00$.
There is always something worth while in bloom in our hardy plant fields from the earliest spring

## TRITOMA-Flame Flower

McOweni. A charming variety, coming into bloom very eariy; stems long, truss rather loose ; color orange-scarlet and yellow. Each, 25 cents; dozen, $\$ 2.50$.
Pfitzeri. A grand improvement of the old Tritoma uvaria grandiflora, or Red Hot Poker. The flower spikes which are produced with considerable more freedom than in the old variety, are of gigantic size, frequently $41 / 2$ feet high, with heads of bloom over twelve inches long, of a rich orange scarlet, shading to salmon-rose at edge. Flowers from July until frost. Each, 25 cents; dozen. $\$ 2.50$.

## SPIREAS, Meadow Sweet or Goat's Beard Each, 25 cents; dozen, $\$ 2.00$.

ARUNCUS. A grand variety three to four feet high, producing in June, long feathery panicles of white flowers.
Blue Spirea. Handsome, free-growing, with many blue and lavender flowers clustered around the limbs.
Filipendula (Dewdrop). An old favorite garden plant, growing one to two feet high. Its fern-like leaves form a broad rosette, the slender stems bear numerous small white and pink flowers in June and July.
Spirea palmata elegans. A beautiful hardy, free-flowering plant, with sweet-scented white flowers and red anthers; very pleasing and useful for cut flowers; an excellent plant for hardy herbaceous borders. Blooms June and July. About three feet high.

The hardy plants listed in this catalogue are grown on our own farms. We make these one of our leading specialties, devoting a great deal of attention to the growing of hundreds of different varieties.

To keep up with the rapidly growing appreciation of hardy, flowering and foliage plants and shrubs for garden decoration and effective landscaping we are steadily increasing our acreage, which is now three times as great as it was three years ago.
flowers to the hardy Chrysanthe-

TRITOMA-FLAME FLOWER It is just as easy and satisfactory to order by mail from us and get high quality plants as if you lived next door

## RUDBECKIA

The Rudbeckias are very decorative plants, desirable for shrubbery, flower borders or along driveways. They thrive in any good garden soil and grow very rapidly. A few small plants will soon grow into large clumps and produce hundreds of flowers
LACINIATA flora pleno-Golden Glow. The best known and most popular everblooming hardy plant grown. It is covered during the season with masses of rich golden-yellow flowers on long stems, making it suitable for cutting.. Six to eight feet high. Each, 20 cents; dozen, $\$ 2.00$.
Newmani. Single, golden-yellow, with black center; grows three feet high. Ilooms from July to October. Each, 20 cents; dozen, $\$ 2.00$.
Purpurea, or Giant Purple Cone Flower. Flowers reddish wine-purple. Two three feet high. Blooms July to October. Each, zo cents; dozen, $\$ 2.00$.

## SALVIA PRATENSIS

A very strong, hardy plant, with flower spikes of deep blue. In bloom from June to September. Twelve to eighteen inches high. Each, 20 cents; dozen, $\$ 2,00$.

## SCABIOSA CAUCASICA

One of the best hardy plants, with flowers of a beautiful lilac color. Useful border plants,
Each, 20 cents ; dozen. $\$ 2.00$.

## YUCCA-Spanish Bayonet

Yucca filamentosa. Ths tall flower spikes of this plant rise four to five feet above the plant, and are thickly hung with creamy-white, bell-shaped, drooping flowers that bloom during July and August. The leaves are of rich, dark green and spike shaped, and stay green nearly the entire year. Strong one-year-old-roots, 25 cents; strong two-year-old roots, 50 cents.

## STOKESIA CYANEA-Cornflower Aster

One of the most valuable of the native hardy plants, growing from eighteen to twenty-four inches high, and of the easiest culture, succeeding in any open sunny situation. Blooming profusely from July until frost; flowers a handsome lavender-blue color, and measuring from four to five inches in diameter. Each 20 cents; dozen, $\$ 2.00$.

## "VICK'S"

 A word thatstands for all
that is best in
seeds and plants

RUDBECKIA, PURPUREA

## VERONICA SPICATA-Speedwell

One of the prettiest of the spring flowering herbaceous plants, bearing pretty blue flowers in long spikes. Valuable both for the garden and for cut fowers. Veronica Spicata should be in every garden. Each, 20 cents; dozen, \$2.00.

## PYRETHRUM

Sometimes called Spring-Flowering Chrysanthemum. Hardy perennial plant of easy culture, with beautiful, large, daisy-like flowers in a variety of brilliant colors, ranging from intense scarlet to pure white. The flowers are borne on long stems and are splendid for cutting, lasting in water longer than almost any other flower. Pyrethrum has an unusually long season of bloom. Each, 20 cents; dozen, $\$ 2.00$.

## PLATYCODON Grandiflorum

The Chinese Bell Flower. In bloom the entire season. The flower resembles Clematis in size and color. Two varieties, blue and white. Each, 20 cents; dozen, $\$ 2.00$.

## A Final Word About Hardy Perennial Plants

Hardy plants are rapidly growing in popularity. In the first place the slight investment increases the value of one's grounds many fold, not only in terms of dollars and cents, but also in terms of beauty. In the next place, plants, like children, respond to care, and show by their training true gentility. In short, every plant which receives your care and attention will come to possess an individuality which, in turn, will give it a value beyond all computation.

Veronica-Long Stikes of Bright Blue Flowers

All postage on plants, etc., must be prepaid, and if a sufficient amount to pay the Parcel Post charges is not sent with the order the plants will be sent by express, charges collect, as we positively cannot keep accounts and send bills for small items of postage.

## Estimated Weight of Plants Packed and Ready for Shipment

Add 2 cents to the price of each berry plant if you want them sent by Parcel Post
For the market grower or for the home garden there is no finer Raspberry than the St. Regis. A trial will convince

## Vick's Grape Vines

Campbell's Early. Strong, hardy vine; healthy, mildew-resisting foliage; bearing abundantly. Berries large, black, with light purple bloom. Flavor rich, sweet, slightly vinous. Very early.
Strong 2 -year-35 cts. each ; \$3.00 for $10 ; \$ 25$ for 100 .
Niagara (White). Bunch very large and handsome, berries large, round; skin thin, tough, carries well; melting sweet. Should be in every garden.
Strong 2 -year-20 cts. each; $\$ 1.50$ for $10 ; \$ 8.50$ for 100 .
Brighton. A large, delicious, sweet, red grape; vine thrifty and a strong grower; flesh sweet, tender and very juicy. Best of all large red grapes. First of September.
Strong 2 -year-20 cts. each; $\$ 1.50$ for 10 ; $\$ 8.50$ for 100 .
Concord (Black). Bunch large, berries large, covered with a rich bloom ; sufficiently firm to carry well to distant markets; flesh juicy, sweet, tender; a strong grower, very hardy, heallhy and productive.
Strong 2 -year-20 cts. each; $\$ 1.50$ for 10; $\$ 8.50$ for 100.
Delaware. Bunches small and compact; berries small, round, thin skinned, light red. Flesh very juicy, with an exceedingly sweet and delicious flavor; very hardy and productive.
Strong 2 -year- 20 cts . each; $\$ 1.50$ for $10 ; \$ 8.50$ for 100.
Worden. Said to be a seedling of the Concord. Bunch large, compact, handsome; berries large-larger than those of the Concord. It ripens a few days earlier, and is superior to it in flavor. Destined to become very popular for the vineyard and garden.
Strong 2 -year-20 cts. each; $\$ 1.50$ for $10 ; \$ 8.50$ for 100 .
Diamond. Bunch large, compact; berry medium size; color greenish white with a yellow tinge; flesh juicy and almost without pulp; very good. Vine vigorous and productive.
Strong 2-year-20 cts. each; $\$ \mathrm{I}$. 50 for 10 ; $\$ 8.50$ for 100.
Salem. Bunch large and compact; berry large, of a light chestnut or Catawba color; thick skınned, perfectly free from hard pulp; very sweet and spicy, with a most exquisite aromatic flavor; as early as Delaware.
Strong 2 -year- 20 cts. each; $\$ \mathrm{~F} .50$ for $10 ; \$ 8.50$ for 100 .

## Vick's Currants

Red Cross. Sweetest currant ever produced. In making jellies requires only half the amount of sugar others do. Large clusters of great big berries. We recommend it to all our customers. Price-20 cts. each; $\$ 1.50$ for 10 ; $\$ 8.50$ for 100.
Perfection. A large, red currant, mild, subacid flavor. Plenty of pulp and few seeds. Less acid and of better quality than any other currant. Very productive. Endorsed by N. Y. State Experimental Station. Winner of Barry Gold Medal, Pan American Exposition Medal and St. Louis Exposition Gold Medal.

Price-25 cts. each; $\$ 2.00$ for $10 ; \$ 17.50$ for 100.
Cherry. Large red berries, borne in fair-length clusters̀. A robust, fruifful and standard variety that we believe has been set more largely in commercial orchards than any other sort.

Price-20 cts. each ; $\$ \mathrm{I} .50$ for 10 ; $\$ 8.50$ for 100.
Wilder. It is one of the strongest growers and very productive. $W_{1}$ Bunches of berries very large, bright, attractive red color, and hang on bushes longer than any other variety.

Price-15 cts. each ; $\$ 1.00$ for $10 ; \$ 7.50$ for 100.
White Grape. Very large, yellowish white; mild acid; fine for the table. Is of low, spreading habit with dark green foliage. The finest of the white kind; very productive.

Price- 20 cts. each; $\$ \mathrm{r} .50$ for 10 ; $\$ 8.50$ for 100.
Black Champion. Bushes large and flavor of fruit particularly delicious. Fruit hangs low on the bushes, and unlike other varieties bears the severest pruning without detriment.

Price-20 cts. each; $\$ \mathrm{r} .50$ for 10 ; $\$ 8.50$ for 100 .

## Vick's Gooseberries

Plants should be set out in clay and moist soil. They should be sprayed with Bordeaux Mixture when the leaves open; then, two weeks later repeat with the same mixture. The berries are easily harvested by stripping the branches with the gloved hand and fanning out the leaves.
Downing. A large, handsome, pale green berry of splendid quality. Popular for cooking and table use. A vigorous grower and proof against mildew.
2-yr.-old bushes-20 cts. each; \$1.75 for 10; \$12 for 100 .
Pear1. Resembles Downing, but superior in size and quality. It
is very hardy; free from mildew. The fruit is pale green. Fine for cooking and table use. Most productive of all Gooseberries. 2-yr.-old bushes-20 cts, each ; $\$ \mathrm{r} .75$ for ro; $\$ 12$ for 100.
Josselyn. (Red Jacket). A strong grower; very productive; less subject to mildew than the others. Fruit very large, smooth, of good flavor; bush absolutely hardy, with clean, healthy foliage. The one red Gooseberry that can be planted with confidence. 2-yr.-old bushes- 25 cts. each; $\$ 2.25$ for 10; $\$ 15$ for 100.

Concord for the black, Niagara for the white, and Brighton for the red Grapes cannot be beaten for the Home Garden

## Vick's Strawberry Plants

This year we are offering for fall planting both the layer and the pot grown plants. They are extra strong and very large. We call your special attention to our pot grown varieties. Notice that we have the leading Fall Bearing plants, Progressive and Superb, both

Brandywine. A large, broad, heart-shaped berry, delicious. Medium red color, flesh is firm. Will thrive on most any kind of soil. Layer and pot grown plants.
Bubach. Among the leaders of old standard varieties, Fruit large and handsome, conical, bright scarlet, moderately firm, rich in flavor. Succeeds on light or heavy soil. Desirable for home use and market. Season early to medium. A great berry, bringing fine prices on the market. Layer and pot grown plants.
Early Ozark. Very early, large, bright red, strong grower, abundant bearer. Best early home garden and commercial berry. Layer and pot grown.
Gandy. A large, late berry, heavy yielder, strong grower. Fruit very firm, and of good quality. On the market brings fine price.
Glen Mary. A fancy market variety. Meat is rich, firm, juicy and of high flavor. Big, dark red berry. Layer and pot grown plants.
Haverland. Strong, vigorous grower. Extremely productive.
Marshall. Old and well-known variety. Fine quality. One of the largest berries on the market. Brings top prices. Layer and pot grown.
Progressive-Fall Bearing. With Progressive planted in your garden you can have Strawberries from May until November. No longer an experiment, but a home garden and commercial success. Bears fruit until the ground-is frozen hard in the fall. Berries bright red, medium size, good quality. Americus and Superb same description. Layer and pot grown plants.
Sample. Dark red berry, large size, delicious flavor. A profit maker. Layer and pot grown plants.

Senator Dunlap. Very hardy and very productive. Berries good size, bright glossy red, good quality. Ripens early and fruits for a long period. Layer and pot grown plants.
Steven's Late Champion. Large, fine colored, late, productive berry. Well known and well liked everywhere. Bright, red, fine flavored. Layer and pot grown plants.
William Belt. Well known. High quality, large, bright crimson berry. Juicy and sweet. Ripens all over, no green tips. Layer and pot grown plants.

## Vick's Uncle Joe

For a fancy, bright red table berry, large, and of high quality, it cannot be beaten. Flesh is tender and delicious, with a rich, sub-acid wild flavor. Plants strong growing and very hardy. If you want size and quality plant Vick's Uncle Joe.

Vick's Uncle Joe .
 Superb.

We do not grow all varieties in pots. Those marked "pot grown" we have a good stock of and can furnish in any quantity.

VICK'S UNCLE JOE We do not prepay charges on pot grown plants. These are sent, carefully packed, by express, collect

Niagara. Larger than Elberta. Fine. Freestone. September. Yellow St. John. Yellow. Extra fine. Freestone. August. Fruit trees go best by Express. Special rates make this very reasonable. They are too heavy for Parcel Post

## Vick's Grass Seed Mixtures

## VICK'S VELVET LAWN GRASS MIXTURE

To make a perfect lawn, good seed is absolutely essential. Vick's Velvet Lawn Grass Mixture is composed of pure seed and contains no chaff or weed seed. Unsurpassed by any other mixture, regardless of price. Under ordinary conditions a velvet lawn is absolutely assured in a few weeks after sowing Vick's Velvet Lawn Grass Mixture.

Good results are only to be obtained by using a mixture of several grasses, because the different varieties will be at their best at different times during the spring, summer and fall. Our Velvet Mixture contains the right kinds in correct proportions, and will produce a thick sod of rich deep green throughout the entire growing season. Only the very highest grades of seed are used.

Do not mix Timothy or any other grasses with our Velvet Mixture. Our mixture is correctly proportioned for nearly all situations and conditions of soil, and will give you entire satisfaction. Vick's Velvet Lawn Grass is sold on a basis of twenty pounds per bushel, and will go fully twice as far as any of the ordinary mixtures of fourteen pounds per bushel we have ever seen.
$1 / 2$ pound, 25 cents; pound, 45 cents, prepaid. Five pounds, $\$ 1.50$; 10 pounds, $\$ 2.75$; 20 pounds ( 1 bu.) $\$ 5.00$, not prepaid.

## VICK'S SHADY SPOT LAWN GRASS MIXTURE

In many places, especially in villages and cities, there is so much shade that ordinary grasses do not succeed. To meet such conditions we have arranged a special mixture based on our long experience with grasses, which we believe will give perfect satisfaction in nearly all shady locations. Thoroughly recleaned, free from weeds, twenty pounds per bushel. $1 / 2$ pound, 25 cents; pound, 45 cents, prepaid. Five pounds, $\$ 1.50$; 10 pounds, $\$ 2.75$; 20 pounds (r bu.) $\$ 5.00$, not prepaid.

## VICK'S EXPOSITION PARK MIXTURE

We sell tons of fancy grasses in various kinds of mixtures for beautifying private and public grounds of every description. Knowing from the experience of nearly 70 years, of dealing with the planters of seed, that the best is the cheapest in the end, our mixtures contain only seed of the highest quality.

VICK'S EXPOSITION PARK MIXTURE. A splendid mixture which grows quickly, makes a fine, smooth, thick turf, suitable for any place where a tough sod is required. Will stand trampling, makes a good appearance, splendid for lawns, tennis courts, croquet grounds, ball grounds, parks, cemeteries and other places where there is a good deal of wear and tear. Can't be surpassed by any other mixture, no matter what the price.
$1 / 2$ pound, 35 cents ; pound, 55 cents, postpaid. Five pounds, $\$ 2.00$; fourteen pounds, $\$ 5.00$, not prepaid.

[^1]
# Uick's Selected Jegetable Seeds FOR FORCING AND FALL SOWING 

For the convenience of our many customers who may desire to order seeds for early planting, before they receive the spring edition of our Garden and Floral Guide for 1918, we have prepared the following list of standard varieties, descriptions of which appear in our Spring Edition, Vick's Garden and Floral Guide, a copy of which will be sent to your address by return mail if desired.

Prices on larger quantities than quoted here gladly furnished on request.

"New Culture" Spawn. Positively fresh, pure virgin spawn. The material from which these bricks are made is spawned directly from Bricks, 35 cents each, postpaid. By express, charges not prepaid, 5 bricks, $\$ 1.00$; 10 bricks, $\$ 1.70$.

## Seeds of Fardy Plants for Fall Sowing

THE perpetual charm of hardy garden flowers has won for them a warm spot in the hearts of all lovers of beautiful gardens. Their popularity is well deserved, for while natural and restful in general effect, their beauty is ever changing and ever appealing, for some new and interesting flowers may be found in the perennial garden from early April until severe freezing weather comes, Time does not adversely affect the Perennial. For years it bears its blossoms in the garden, growing finer and more beautiful as the seasons pass. The seed may be sown in the early spring with the Annuals, or equally satisfactorily later in the summer. If sown late give the seedbed a cool, damp place, or keep the ground shaded and quite moist by artificial shading and watering until the plants appear. They will then make sufficient growth to carry them through the winter and will bloom the next summer. As for the soil, all that is necessary is good garden loam. A slight protection of leaves or straw the first winter isan advantage.

For complete list of Annuals, Perennials and Biennials, see Vick's Garden and Floral Guide, Spring Edition, a copy of which will gladly be sent upon request.

## PERENNIALS Price per packet

## Vick's Grass and Clover Seeds

We make a specialty of the best grades, free from weeds and impurities, and of good germination. We believe, in the long run, the best proves to be the cheapest, and for these reasons the prices quoted on this page are for extra fancy stocks only, leaving cheap, undesirable grades out of consideration. Prices on grasses are invariably net cash, f.o.b. Rochester. Not less than 25 lbs . at 100 pound prices. Since the market varies from day to day, these prices are subject to change without notice. Customers who need considerable quantities, are requested to write for samples and prices. Bags to contain 1 to $21 / 2$. bu., will be charged for at 33 cents each.

## EXTRA RECLEANED GRASSES

AWNLESS BROME GRASS. (Bromis inermis.) Perennial; especially suited to dry lands and arid regions. Does well in all parts of the country. Grows most rapidly in sandy soil, but will do well in heavy land. Hardy ; produces heavy crops, sow 25 to 50 lbs. per acre . BERMUDA GRASS. (Cynodon Dactylon.) Invaluable in the South. Not hardy in the North.
CREEPING BENT. (Agrostis stolonifera.) Fine for lawn or pasture mixtures; thrives best in moist places 28 to 40 lbs . per acre. . . CRESTED DOG'S TAIL. (Cynosurus cristatus.) Invaluable in permanent pasture grasses and in some lawn mixtures
FANCY RED TOP. (Agrostis vulgaris.) Indispensible in mixtures for lawns, pastures or meadows; will grow in almost any soil moist or dry. Our stocks clean, beautiful, silky, heavy seed. For lawns 40 pounds per acre; for pasture or meadow 20 to 30 lbs . per acre. . . HARD FESCUE. (Festuca elatior.) A low-growing grass; succeeds well in dry places. Used in many lawn mixtures
ITALIAN RYE GRASS. (Lotium Italicum) Annual; will thrive in almost any soil; grows rapidly, yieldsabundantly. If sown in the fall will produce crop of hay the following summer.
KENTUCKY BLUE GRASS. (Poa pratensis.) Invaluable for lawn; unexcelled as a pasture grass; thrives on a variety of soils, but does best in dry and shady places. Our seed fancy and extra heavy. For lawns 60 lbs . per acre; for pasture 20 lbs . per acre..
MEADOW FESCUE. (Festuca pratensis.) Excellent pasture grass; occasionally used in other mixtures. 40 pounds per acre.
MEADOW FOXTAIL. (Alopecurus pratensis.) An excellent early and rapidly growing pasture grass.
ORCHARD GRASS. (Dactylis glonerata.) One of the best pasture grasses; exceedingly palatable to stock, will endure a great deal of cropping. Twenty to thirty pounds per acre.
PERENNIAL RYE GRASS. (Lolium perenne.) Valuable for pasture and lawn grass mixtures, 20 to 30 lbs. per acre.
RED FESCUE. (Fiestuca rubra.) An excellent grass for shady places; forms a rich close sod. .
RHODE ISLAND BENT. (Agrostis canina.) An excellent lawn grass
ROUGH STALKED MEADOW GRASS. (Poatrivialis.) An excellent pasture or meadow grass, especially for low moist land. SHEEP'S FESCUE. (Festuca ovina.) Low growing grass with an abundance of fine narrow leaves. Flourishes on light soils; jolbs. per acre SWEET VERNAL GRASS, TRUE PERENNIAL (Anthoxanthum odoratum.) After cutting it emits a fragrant odor. TALL MEADOW OAT GRASS. (Avena elatior.) Valuable for meadow and pasture. 50 to 60 pounds per acre.
WOOD MEADOW GRASS (Poc nemoralis.) Grows quickly, valuable in shady places. Very scarce; market price
TIMOTHY. (P/2leum pratense.) Leading variety for hay crop; stock bright, plump, high purity and germination test. Io to 22 lbs. per acre

## CLOVERS

"VICKS KING BRAND" RED CLOVER, extra fancy, bright colored plump seed, much superior to average stocks offered
CRIMSON CLOVER. (Trifolium incarnatum.) Valuable for hay, pasture, ensjlage or for soil fertilizer. Being an annual it must be sown every year in August or September. ro to 15 pounds per acre
ALSIKE OR SWEDISH CLOVER (Trifolium hybridum.) Surpasses all other clovers for rich moist soils, Eight pounds per acre WHITE CLOVER. (Trifolium repens.) Valuable in lawn grass mixtures and indispensable in pasture mixtures. Pound, 60 cts. SWEET OR BOKHARA CLOVER White blossom. (Melilotus alba.) Valuable perennial for soil fertilizer. . . . . . . . . Lb., 30 cts.

We believe the best seed proves to be the cheapest in the long run. We sell nothing but extra fancy stock

## VICK QUALITY FARM SEEDS

By Express or Freight, Collect. Special Prices on Large Quantities. Quotations Below are Subject to Market Changes. VERY IMPORTANT NOTICE. Our prices have been reduced to the actual value of the seed. Additional remittance to pay for bags should therefore be included as follows: For each peck, 15 cents; for quantities from $I$ to $2 \frac{21 / 2}{}$ bushels, 33 cents.

## ALFALFA

Our Alfulfa seed is grown in the Northwest on non-irrigated? land, and is therefore hardier than Southwestern grown seed. We have a beautiful stock of clean, plump, bright colored seed free from weeds. Alfalfa is a wonderful soil restorer. It improves the value of every acre it covers. Alfalfa hay is richer and more valuable than the best grades of Timothy. Farmers in all sections of the country are learning that Alfalfa is adapted to more kinds of soil and more localities than was formerly supposed. Alfalfa on our own farms has proved to be a splendid moneymaking crop. Horses, cows, colts, and pigs thrive upon it. It grows very rapidly even in this northern climate We cut three crops every year, and thercfore get more hay per acre than from any Clover field.

Alfalfa should be put in just as early as possible this fall on fields which have been thoroughly pulverized and worked over a number of times. Indeed, thorough tillage is half the secret of good Alfalfa. Pound, 25 cents; bushel, $\$$ I3.00.

## HAIRY VETCH

Haizy Vetch excels Alfalfa and the Clovers in making a quick growth, and in the number and size of the nitrogen-bearing nodules on its roots. It is hardy throughout he northern United States.

It is a vigorous plant, making a growth in good soil, if allowed to mature, of five to six feet, and furnishing an abundance of valuable forage. In feeding value it resembles Alfalfa. For enriching the soil a good crop of Hairy Vetch plowed under is estimated to be equal in value to forty tons to the acre of fresh stable manure.

Hairy Vetch will thrive on poor, sandy soil not adapted to the growing of Clover, and is especially valuable for restoring fertility to run-down soils.
We have grown Hairy Vetch with success for several years, sometimes growing it alone and sometimes combining it with Rye. When grown alone a heavy crop of hay can be taken off in June, after which it will furnish abundant and rich pasturage all the rest of the season. When sown with Rye and cut green, the combined Rye and Vetch will make a hay crop of food value equal to mixed Timothy and Clover hay, and the yield will be considerably greater per acre. Whether sown alone or with Rye, sowing should be made just as early as possible in order to give the plants
a good start before cold weather comes on. If combined with Rye, sow sixty pounds of Hairy Vetch and a peck of our White Winter Rye to an acre. Sow seventy-five to ninety pounds of Hairy Veich to an acre if sown separately. A bushel weighs sixty pounds.
By express or freight, not prepaid, per pound, 25 cents; lots of 15 pounds or over, 22 cents a pound.

## WHITE WINTER RYE

Winter Rye is deservedly becoming very popular for fall sowing. It can be sown later than almost any other fall crop in the United States. It is hardier than Wheat and makcs a more rapid growth. It can be sown on land where Wheat would drown out or winter kill. Every farmer should put in a field of Winter Rye this fall. It will grow so rapidly in the spring that it can be plowed under to furnish a heavy tonnage of green manure for fertilizer for some other crop, or it can be left a few weeks longer to yield an enormous crop of high quality hay. If allowed to ripen, the usual yield will equal the average yield of Winter Wheat. The yield of straw is heavier, and brings higher prices than the straw of almost any other grain. Our stock of White Winter Rye is grown very largely on our own farms. Our stock is free from weeds. The seed is plump, heavy, bright, and of high germination. Peck, 75 cents ; bushel, $\$ 2.75$, not prepaid.

## SPECIAL FARM GRASS MIXTURES

Made up of the best grasses for the purpose desired; will furnish permanent sod for years. All these varieties are made up to sow 42 pounds to the acre, and contain a sufficient number of varieties to make a well balanced mixture.

VICK'S STANDARD HAY MIXTURE. Will yield heavy crops on general hay land. Per $1 \mathrm{~b} ., 25$ cents; $100 \mathrm{lbs} ., \$ 21.00$. VICK'S STANDARD PASTURE MIXTURE. Best suited for ordinary pasture where land is never unusually wet or dry, light or heavy. Per lb., 27 cents; ioo lbs., \$22.00.

VICK'S DRY PASTURE MIXTURE. For high and dry places; contains grasses that will withstand exposure and severe weather. Per lb, 30 cents; 100 lbs., $\$ 27.00$.

VICK'S WET PASTURE MIXTURE. Contains grasses especially adapted to moist soil. Per lb., 30 cts ; $100 \mathrm{lbs} ., \$ 27.00$.

All Seeds listed on this page are priced on the basis of express or freight to be paid by customer.
Bags are extra: peck bags, 15 cents; 1 to $2 \frac{1}{2}$ bu., 33 cents each.

## INSECTICIDES

Note. Liquids and Poisonous Powders cannot be sent by mail.
Black-Leaf 40 (Liquid). A highly concentrated solution of Nicotine Sulphate. Evaporates more slowly than other Tobacco extracts, therefore especially valuable for outside use, for aphis, (lice, ants, etc.) Endorsed by Experimental Stations. I oz. bottle 25 cenis; $1 / 2 \mathrm{lb}$. can 75 cents; 2 lb . can $\$ 2.50$; io lb. can, $\$ 10.75$. By express, not prepaid.
Dalmatian Insect Powder. The true "Persian" insect powder, $1 / 4 \mathrm{lb}$., 30 cents; $1 / 2 \mathrm{lb}$., 50 cents; lb., 90 cents; postpaid.
Sulpho-Tobacco Soap. Used as a wash for roses, trees and house plants. Very desirable for insects on animals. 3 -oz. cake, 15 cents; 8 -oz. cake, 30 cents; postpaid.
Tobacco Dust. (The Black Stuff.) I lb. by mail 20 cents, if not prepaid io cents. Special price on large quantities.
Nicofume Paper. A tobacco-paper insecticide for fumigating only. Small size, 24 sheets, 85 cents; medium size, 144 sheets, $\$ 4.00$; large size, 288 sheets, $\$ 7.50$; charges not prepaid.
Nicofume Liquid. An excellent, high per cent. nicotine solution for fumigating and spraying. $1 / 4 \mathrm{lb} ., 50$ cents; $1 \mathrm{lb} ., \$ 1.50$; 4 lbs., $\$ 5.50 ; 8 \mathrm{lbs} ., \$ 10.50$. Not prepaid.
Nicoticide. (Liquid.) Can be used for either fumigating or spraying. $1 / / 4$ pint, 70 cents; $1 / 2$ pint, $\$ 1.25 ; 1$ pint, $\$ 2.50$; 1 quart, $\$ 4.50 ; 1 / 2$ gallon, $\$ 8.50$; 1 gal., $\$ 15.00$; charges not prepaid. Fumigating lamps, complete, 50 cents, not prepaid.
Nikoteen Kills the Bugs. A thorough exterminator of all injurious insects. $13 / 4 \mathrm{oz}$. bottle, 40 cents; $1 / 2 \mathrm{lb}$. bottle, 85 cents ; I lb. bottle, $\$ 1.50$; charges not prepaid.
Kerosene Emulsion. 65 per cent. oil. Forscale insects, aphis, etc. Quart, 50 cents; gallon, $\$ 1.25$; charges not prepaid.
Fish Oil Soap. Used as a wash for roses, trees and plants affected with insects. $1 / 2-1 \mathrm{~b}$. box, 25 cents; 1-1b. box, 40 cents, postpaid. Special price on large quantities.
Improved Kil-Tone. A combined insecticide and fungicide. To control leaf-eating insects and plant diseases. Recommended for Potatoes, Beans, Melons, Tomatoes, Cucumbers, Egg Plant, Roses and Shrubbery. I lb. package, 30 cents; Io lbs., \$2.50; $25 \mathrm{lbs}, \$ 5.50$.

## FERTILIZERS <br> PULVERIZED SHEEP MANURE

CONVENIENT. Being thoroughly dried and finely ground, Pulverized Sheep Manure is in a convenient form for use on the lawn, in the garden, in the greenhouse, or for potting soil. Most of the weight has been removed in drying.
NATURAL. A pure animal fertilizer, dried and pulverized. No chemical change or loss of plant food occurs in drying and grinding. Adds organic matter to the soil by nature's own method.
INOFFENSIVE. Unequalled for the lawn. In effect it is a top dressing of stable manure, without any unsightly appearance or offensive odor.
NO RISK. Contains no acids or chemicals to burn the sprouting seeds or roots of plants. May be safely used wherever stable manure would be desirable, and without inconvenience or discomfort.
The most satisfactory fertilizer for lawns.
The first shower, or watering, following an application of Pulverized Sheep Manure, produces a luxuriant dark green growth. The insoluble particles, gradually decaying, feed the grass roots for a long time, so that the effect is lasting.

In the Garden Pulverized Sheep Manure is convenient; it furnishes plant food in the best form for growing plants of all kinds; and it adds organic matter or humus, to the soil, thus keeping it in a good mechanical condition. Commercial fertilizers cause the soil in time to become hard and dry.

Quantity to an acre, one ton; 12 lbs . to 300 square feet. Prices: 5 lbs. 35 cents; $25 \mathrm{lbs} . \$ 1.00 ; 50 \mathrm{lbs} . \$ 1.25$; Ioo lbs. $\$ 3.00$; by express or freight, not prepaid.

Clay's Fertilizer. A well-known English fertilizer for forcing greenhouse plants. Exportation of fertilizers not allowed at present by British government.
Nitrate of Soda (Chili Saltpetre). The best and cheapest form of Nitrogen for plants. Highly concentrated and immediately available. Nothing like it to make plants grow. Price subject to market changes. 3 lbs., 45 cents; 5 lbs., 75 cents; io lbs., $\$ 1.25$; 25 lbs., $\$ 2.75$; 50 lbs., $\$ 5.00$; 100 lbs ., $\$ 9.00$; charges not prepaid.
Pure Raw Bone Meal. 1 lb., 10 cents (by mail 25 cents); 5 lbs., 45 cents; io lbs., 75 cents; 25 lbs., $\$ 1.75$; 50 lbs., $\$ 3.00$; 100 lbs., $\$ 5.00$; charges not prepaid.
Scotch Soot. Per bag (about 112 lbs.), $\$ 4.00$; charges not prepaid.
Wood Ashes. Per barrel, about 200 lbs., $\$ 3.50$; ton, $\$ 25.00$; charges not prepaid.

## MISCELLANEOUS SUPPLIES

Grafting Wax. 1/4 lb., 15 cents; $1 / 2 \mathrm{lb} ., 25$ cents ; lb., 40 cents, postpaid.

## "SCALECIDE" The Tree Saver <br> Save Your Trees and Shrubs

"SCALECIDE" is guaranteed to kill the San Jose scale without injury to the tree or fruit buds if directions are followed. Ycu can apply "SCALECIDE" any clear
 day when the thermometer is above $40^{\circ}$ Fahrenheit, after the leaves begin to drop in the fall or until the blossoms start budding in the spring.

Prof. M. W. Richards, Sec., Indiana Hort:cultural Society, says: "The trees which received 'SCALECIDE' in 1916 stand out head and shoulders above the rest of the orchard. The scale has gone, and bark has a thrifty, snappy, green appearance. Trees look good for another thirty years."

(Continued from Inside Front Cover)
bushels per acre, the yield on this fifteen acre field makes a good comparison of ROCHESTER NUMBER SIX with other varieties.

A very important characteristic of ROCHESTER NUMIBER SIX is the fact that it is a beardless variety. The straw is therefore not only more agreeable to handle but will bring a higher price than bearded straw.

It is a well known scientific fact that seeds for northern latitudes should be of the most hardy vigorous type. No Minnesota or Canadian farmer would think of seeding his fields with wheat from southern Illinois or Oklahoma. It stands to reason therefore that farmers in the northern states instead of using some highly advertised stock grown in a warmer climate should use some hardy rigorous type of wheat like ROCHESTER NUMBER SIX, grown on the wind swept northern boundary of the United States.

As we have been growing this crop for seed purposes, we have had men and boys frequently: go through the field to pull out weeds, in order that our seed wheat may be just as clean as possible.

Our field of wheat was absolutely free from any form of smut.
One excellent characteristic of ROCHESTER NUMBER SIX is the fact that it requires less seed per acre than ordinary kinds. We recommend sowing on well tilled, fertile soil not more than two and a quarter bushels per acre.

Since our prices are scarcely more than the price of ordinary wheat plus the additional expense of caring for this crop, recleaning and marketing the seed and since less seed wheat is required per acre than of ordinary kinds, it is actually less expensive to sow ROCHESTER NUMBER SIX than to sow the required amount of ordinary grain. But still more important is the increased possibility of a bumper crop next year which will mean prosperity for the farmer and food for the world.

Do you want to do your share toward increasing the nation's acreage of wheat this coming year? Governor Whitman of this State is urging the planting of a million additional acres. Every person can help. Those who own or manage farms should plan to put in as large a quantity as possible of ROCHESTER NUMBER SIX or some other excellent kind, in order to increase the yield per acre. If you do not own or operate a farm, we believe you can do the cause a service by calling the attention of some farmer of your acquaintance to the extraordinary worth of ROCHESTER NUMBER SIX.

Mr. Farmer, your COUNTRY is calling YOU. Your country asks that you produce the largest crops possible per acre next year. For your own good and for the world's need respond to your country's call by planting the largest possible acreage of the best variety of wheat you can find. Remember when you send orders to us, you are dealing with practical seedsmen who operate more than five hundred acres in the best fruit and grain section in the United States. We are a firm believer in ROCHESTER NUMIBER SIX because we have watched the results for several years. We believe that a variety like ROCHESTER NUMBER SLX which does so well here, will do well anywhere in similar climates and we advise the planting of ROCHESTER NUMBER SLX. Frices, peck, 95 cents; bushel, $\$ 3.25$; bag of $2 \frac{1}{4}$ bushels, $\$ 7.25 ; 10$ bushels or more at $\$ 3.00$ per bushel.

[^0]:    Artus. (Er) D Flowers large, beautiful bright red, making a splendid show when planted alone or with other colors.
    *Belle Alliance. (Ex) D A finely-formed flower, bright scarlet in color. One of the best for bedding, as it lasts a long time; also one of the best for pot culture.
    Brutus. (EI) D One of the best dark red varieties. .
    Brutus (Gold-striped). (EI) D Same as Brutus, with stripes of orange .
    *Canary Bird. (E) T Flower a bright yellow
    *Chrysolora. (E) M Flowers a fine, rich golden-yellow
    *Couleur Cardinal. (Ex) T Bronze scarlet; a flower of great substance; stems long.
    Couleur Ponceau. (EI) M Flower crimson and white, the combination making a very showy bed
    *Cottage Maid. (EI) D Rose and white; one of the most charming variegated varieties
    Crimson King. (EI) T Fine bright scarlet, yellow at base. Excellent bedder.
    Duchesse de Parma. (EI) T Large fine formed flowers, orange-red with yellow-border around outer edge.
    *Dusart. (EI) M Large deep scarlet flowers; keep a long time. Fine bedder
    Fire Flame. M Large rich scarlet. Fine
    *Flamingo. M Light and dark rose melting together, Extra good.
    *Joost van Vondel Variegated. (EI) M Another fine variegated sort. Cherry red feathered with white.
    *Joost van Vondel White. ( $\mathrm{E}_{\mathrm{I}}$ ) M Pure white. Flowers large, of fine form
    *Keizerskroon. (EI) T Bright scarlet, broad yellow margin. A popular variety for bedding and potting.
    *L'Immaculee. (E) M Pure white, good
    *La Reine. (EI) M (Queen Victoria) A splendid variety for either bedding orhouse-culture. Beautiful rosy white
    *Mon Tresor (Ex) M The best yellow Tulip for early forcing. Pure yellow

[^1]:    To ascertain the necessary quantity of Vick's Lawn Grass Mixtures use the following rule:-
    Use one-half pound of seed to 275 square feet; one pound to 450 square feet; 100 pounds to one acre, ( 43,560 square feet).
    
    
    Cover clay spots or subsoil from excavations with light surface soil. Settle and level by repeated rolling and raking. Rake in a liberal amount of Vick's Pulverized Sheep Manure. It will not burn the seed. Sow when the ground is ready and keep the lawn sprinkled, if possible, until the grass is well established.
    In the Rochester parks, whose fame is country wide, Vick's Grass Seeds are used. Pure seed always gives good results
